

AT560 Light Truck Radial Tires 65R22.5-20PR Tractor Trailer Tires

Our Product Introduction

for more products please visit us on commercial-autos.com

Basic Information

- Place of Origin: Yunnan, China
- Model Number: AT560
- Minimum Order Quantity: 1
- Price: Available for negotiation
- Packaging Details: Waxing in Bulk ship, Roro ship, Container
- Delivery Time: 30-45 working days
- Payment Terms: T/T
- Supply Ability: 1,000 units per month

Product Specification

- Purpose: For Replace/repair
- Condition: New
- Tire Design: Radial
- Type: Radial Otr Tire
- Truck Model: Heavy/light Truck Dump Truck Tractor
- Tire Size: 385/65R22.5-20PR
- Highlight: **Light Truck Radial Tires 65R22.5-20PR, 65R22.5-20PR Tractor Trailer Tires, AT560 Light Truck Radial Tires**

Product Description

Auto Parts 65R22.5-20PR Truck Tire Supply 22.5 Truck Radial Tires Vehicle Parts&Accessories

Product features:

The characteristic of radial tires is that their carcass cords are arranged in the meridian direction, which is different from bias tires and arch tires, which gives them many advantages. First, radial tires have better wear resistance and puncture resistance because of their large radial elasticity, strong tread wear resistance and puncture resistance, and their mileage is about 30% higher than that of ordinary bias tires. Secondly, radial tires have low rolling resistance and save fuel consumption, thanks to their fewer cord layers and smaller circumferential deformation.

Product advantages:

Strong safety performance. The structural advantages of radial tires make the tire tread not easy to deform, and have good grip and buffering performance, providing a better and more stable driving experience. High strength: The cord layers of radial tires are arranged radially, which makes the tires have higher rigidity, thereby improving the impact resistance and wear resistance of the tires. Energy saving and emission reduction: The light weight and low rolling resistance of radial tires help reduce fuel consumption and greenhouse gas emissions.

Specification:

Item	Value
Tire size	385/65R22.5-20PR AT560
Applicable model	Tractor/Heavy truck/Light truck/Dump truck
Function	Replacement/repair/rebuild/upgrade/manufacturing
