

## 65R22.5-20PR Radial Truck Tires Customization 22.5 Truck Tires

Our Product Introduction

for more products please visit us on [commercial-autos.com](http://commercial-autos.com)

### Basic Information

- Place of Origin: Yunnan, China
- Model Number: AT560
- Minimum Order Quantity: 1
- Price: Available for negotiation
- Packaging Details: Waxing in Bulk ship, Roro ship, Container
- Delivery Time: 30-45 working days
- Payment Terms: T/T
- Supply Ability: 1,000 units per month

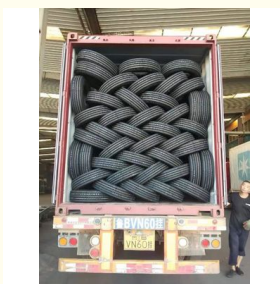

### Product Specification

- Purpose: For Replace/repair
- Condition: New
- Tire Design: Radial
- Type: Radial Otr Tire
- Truck Model: Heavy/light Truck Dump Truck Tractor
- Tire Size: 385/65R22.5-20PR
- Highlight: **65R22.5-20PR Radial Truck Tires, Customization 22.5 Truck Tires, Radial Truck Tires Customization**

## Product Description

Commercial Vehicle Parts 65R22.5-20PR Size Truck Tire 22.5 Truck Parts & Accessories Tire Customization

### Product features:

Tires are vital components of vehicles. As the only part of a vehicle that contacts the ground, the performance of tires directly affects the safety of vehicle drivers and passengers. They are designed for heavy-duty cargo, and their wear resistance, load-bearing capacity, and cushioning performance are suitable for use in complex road conditions and under heavy loads, ensuring the safety and durability of vehicles.

### Product advantages:

The radial tire has a large contact area, good adhesion, small tread slip, and small unit pressure on the ground, so it has low rolling resistance and long service life. The crown is thick and has a hard belt layer, which is not easy to puncture; it has small deformation during driving and can reduce fuel consumption by 3% to 8%. Because the number of cord layers is small and the sidewall is thin, it has large radial elasticity, good buffering performance, and large load capacity.

### Specification:

Item	Value
Tire size	385/65R22.5-20PR AT560
Applicable model	Tractor/Heavy truck/Light truck/Dump truck
Function	Replacement/repair/rebuild/upgrade/manufacturing
