Product Description

Ford Ambulance Vehicle Used Or New Ambulance Emergency Ambulance Rescue Car Hospital Disability Transfer Vehicle

Product features:

Automatic pop-up electrical socket: The vehicle is equipped with an automatic pop-up electrical socket that will automatically pop out when the vehicle is started, saving every second for emergency tasks, and also avoiding damage to the vehicle caused by forgetting to unplug the power cord.

Anti-fatigue driving monitoring: equipped with DSM system, real-time detection of the driver's mental state, prevent inattention, smoking, making phone calls and other dangerous driving behaviors, and enhance driving safety

Driving assistance: Equipped with ADAS system, it warns the driver of possible dangerous situations in advance, allowing the driver to take corresponding measures in advance to avoid traffic accidents.

AI image recognition, check for missing items and fill gaps: Only one camera installed in the car can efficiently manage the ambulance. Use AI technology to identify the status of stretchers, equipment, medical staff and patients in the car, and grasp the overall operation status of the ambulance at the first time. Physical comparison can be carried out without contact to check for missing items and fill gaps. Remote management of various emergency medicines, equipment, stretchers and other items can be carried out to avoid missing items.

Product advantages:

The fully automatic air suspension can not only absorb up to 80% of vibration energy, but also adjust the patient to the perfect position for the required treatment through the overall lifting function.

The interior and medical cabinets are made of matte white interior with vibrant orange shape. They can be wiped with alcohol and are completely washable, which is convenient for disinfection and seat cleaning.

The medical cabin uses an one-piece molded interior made of alloy and flame-retardant and cold-resistant materials, which ensures strength while reducing the interior's weight by up to 30%, improving safety and aesthetics.

Specification:

Main Specification	
Product Name	Automatic ambulance
Engine	2.3T 174PS L4
Max. power(kW)	128(174PS)
Max. torque (N·m)	430
Gearbox	6 speed manual
Overall Dimension(mm)	5498x2068x2485
Body structure	5 door 3 seater truck
Wheelbase(mm)	3300
Max. horsepower (Ps)	174
Max. power(kW)	128
Max. power speed (rpm)	3200
Max. torque (N·m)	430
Max. torque speed (rpm)	1400-2400
