Basic Information

- Place of Origin: Henan, China
- Minimum Order Quantity: 1
- Price: Available for negotiation
- Packaging Details: Waxing in Bulk ship, Roro ship, Container
- Delivery Time: 30-45 working days
- Payment Terms: T/T
- Supply Ability: 1,000 units per month

Product Specification

- Medical Equipment: Yes
- Transmission Type: Automatic
- Condition: New
- Emission Standard: Euro 3
- Fuel Type: Diesel
- Length (m): 3 - 8m
- Fuel: Diesel Ambulance Vehicle
- Drive Type: 4*2
- Color: Customer Requirement
- Application: Emergent Life-saving
- Ambulance Type: Standard Ambulance
- MOQ: 1 Set
- Function: Multi Functional
- Highlight: 4x2 Mini Ambulance, 4x4 Ford Diesel Ambulance, 1/2 Custom Diesel Ambulance

Product Description

4x2 Ambulance Mini Ambulance 4x4 Ford Transit Ambulance

Product features:

Clean and safe air: The on-board hydrogen peroxide disinfection uses high-speed turbine motor Venturi diffusion technology, which does not require heating, blocks aerosol transmission, achieves terminal disinfection, and ensures that medical staff and patients in the vehicle are not infected again.

The exterior lighting function is linked to the original car key. When the vehicle is unlocked, the exterior lighting will automatically turn on, improving the safety of entering and exiting the vehicle at night. The interior lighting is mainly controlled by door control and the brightness of the exterior environment. It can automatically turn on the lighting and fill light modes to ensure the brightness inside the vehicle;

White light and warm light can be adjusted at the same time, which can not only meet the lighting brightness in the car, but also provide a relatively soothing atmosphere in the car.

Product advantages:

360-degree panoramic system broadens the driver's field of vision: The 360-degree panoramic system provides the driver with a complete view of the surrounding environment, allowing the driver to clearly see the surrounding real-time environment, ensuring that the ambulance can pass quickly and safely even on narrow city streets.

Vehicle data management and log visualization: Through the large visualization screen, you can get an overall understanding of the daily or monthly operation status of all ambulances, including the number of vehicles online, mileage, operating hours, alarm conditions, etc.

Adequate oxygen supply: The vehicle-mounted oxygen supply system uses a high-definition LCD display. Combined with the oxygen remaining in the oxygen cylinder, it can turn on the automatic gas supply mode and support manual switching. It has a 485 data transmission function and can be intuitively displayed on the electrical centralized control system.

Specification:

Main Specification	
Product Name	Automatic ambulance
Engine	2.3T 174PS L4
Max. power(kW)	128(174PS)
Max. torque (N·m)	430
Gearbox	6 speed manual
Overall Dimension(mm)	5498x2068x2485
Body structure	5 door 3 seater truck
Wheelbase(mm)	3300
Max. horsepower (Ps)	174
Max. power(kW)	128
Max. power speed (rpm)	3200
Max. torque (N·m)	430
Max. torque speed (rpm)	1400-2400
