Product Description

Product features:

Adopting hydraulic lifting platform, it can be flexibly adjusted according to the height of the faulty vehicle, with smooth and precise operation.
Equipped with intelligent tire pressure monitoring system, real-time monitoring of trailer tire pressure to ensure driving safety.
The trailer chassis is strengthened, with strong carrying capacity, and can adapt to different road conditions.

Product usage:

Used for towing light trucks parked on the roadside due to flat tires, engine failure and other reasons.
On mountainous highways, rescue the tourist buses that have broken down and transfer them to the maintenance place.
Assist in handling the scene of traffic accidents, towing the damaged vehicles away from the scene to facilitate traffic recovery.

Product advantages:

The hydraulic lifting platform is easy to operate and can adapt to various vehicle heights to improve rescue efficiency.
Intelligent tire pressure monitoring system warns tire problems in advance to avoid rescue accidents caused by tire failure.
Reinforced chassis protects the trailer to drive stably under complex road conditions, ensuring the smooth completion of the rescue mission.

After-sales service

AUTOKING has four overseas branches to develop overseas customers. We also carry out after-sales service guarantee for vehicles.

Is the price cheap?

The price is chosen by comparing several car manufacturers, and we also hope that customers can compare several times and finally choose our company.

Is international logistics guaranteed?

After the purchase of goods are shipped, the company tracks the order in full. Shipping video and transport video we provide for you at any time.

Specification:

The main parameters	
Drive type	4X2
