Product Description

Product features:

Adopting modularized design, the parts are easy to disassemble and replace, convenient for repair and maintenance. Installed with vehicle information detection module, which can quickly detect the basic information of the faulty vehicle, such as the model and fault code.

Equipped with automatic lubrication system, lubricate the key components regularly to extend the service life of the equipment.

Product usage:

In the vicinity of automobile repair shops, fast transfer of vehicles in need of repair to improve the efficiency of repair.

Provide vehicle transportation service for 4S stores, towing faulty vehicles from customers to stores for repair.

Assist insurance companies to deal with damage determination and transportation of accident vehicles, providing reference based on inspection information.

Product advantages:

Modularized design reduces the difficulty and cost of maintenance and reduces equipment downtime.

Vehicle information detection module facilitates subsequent repairs and improves the relevance of repairs.

Automatic lubrication system reduces component wear and prolongs equipment life and reduces maintenance costs.

After-sales service

AUTOKING has four overseas branches to develop overseas customers. We also carry out after-sales service guarantee for vehicles.

Is the price cheap?

The price is chosen by comparing several car manufacturers, and we also hope that customers can compare several times and finally choose our company.

Is international logistics guaranteed?

After the purchase of goods are shipped, the company tracks the order in full. Shipping video and transport video we provide for you at any time.
