

4*2 Refrigerated Box Truck 3 Ton Frozen Van 150hp Cargo Truck

Our Product Introduction

for more products please visit us on commercial-autos.com

Basic Information

- Place of Origin: henan
- Brand Name: Refrigerated Van
- Minimum Order Quantity: 1
- Price: Available for negotiation
- Packaging Details: Waxing in Bulk ship, Roro ship, Container
- Delivery Time: 30-45 working days
- Payment Terms: T/T
- Supply Ability: 1,000 units per month

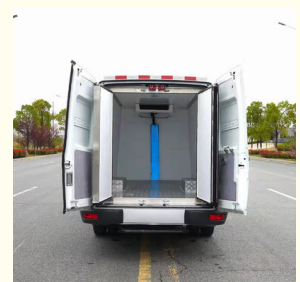

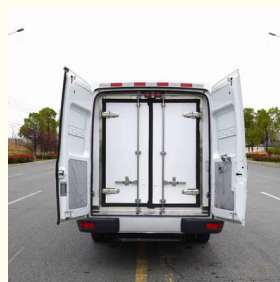

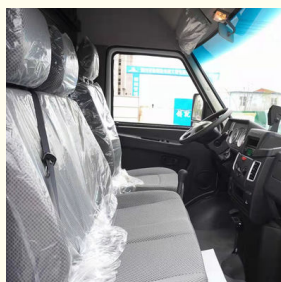

Product Specification

- Model: CLW5041XLCNJ6
- Transmission Type: Automatic
- Condition: New
- Horsepower: < 150hp
- Emission Standard: Euro 6
- Dimensions (L X W X H) (mm): 5995x2000x2800(mm)
- Box Dimensions (L X W X H) (mm): 3360x1640x1550(mm)
- Gross Vehicle Weight: ≤5T
- After-sales Service Provided: Video Technical Support, Online Support
- Maximum Torque(Nm): ≤500Nm
- Capacity (Load): 1-10T
- Engine Capacity: 4 - 6L
- Wheelbase: 3310mm

Product Description

Product features:

Diversity of cargo space: Refrigerated trucks are designed with a variety of cargo space layouts according to different cargo characteristics, including loading methods for bulk goods and boxed goods, as well as auxiliary equipment such as shelves and hooks.

Intelligent control system: Modern refrigerated trucks are equipped with intelligent control systems that can monitor and record parameters such as temperature and humidity in the car in real time, and automatically adjust the operating status of the refrigeration system as needed.

Product usage:

A Refrigerator Truck is a temperature controlled vehicle designed for transporting chilled and frozen goods. It is equipped with advanced brakes, such as ABS, and a high-performance engine, typically fueled by diesel. It also features an insulated body made of foam, allowing it to maintain freezing temperatures during delivery. This makes it an ideal choice for transporting refrigerated goods, such as food and pharmaceutical products, over long distances. With its reliable and efficient performance, the Refrigerator Truck is an excellent choice for businesses that need to deliver goods that require temperature control.

Product advantages:

Good after-sales service: Many refrigerated truck manufacturers provide comprehensive after-sales service, including repair and maintenance, parts supply, technical support, etc., to ensure that users can get timely help and support during use.

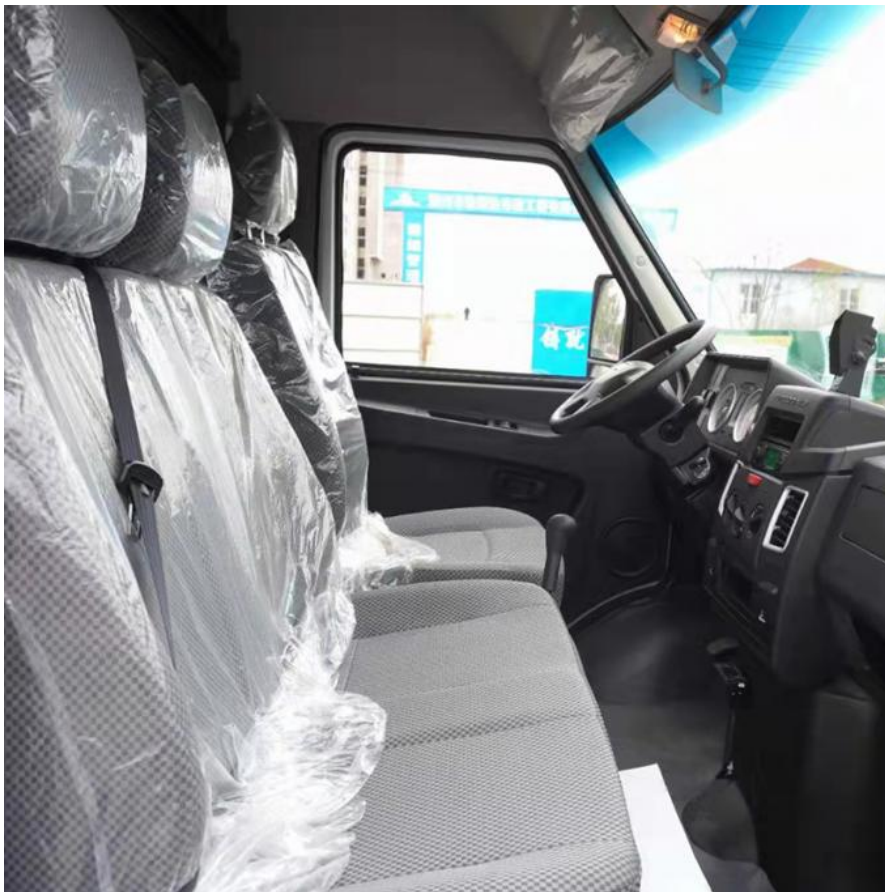

Energy saving and environmental protection: Refrigerated trucks are designed with energy-saving and environmental protection needs in mind, using efficient refrigeration systems and insulation materials to reduce energy consumption and waste.

Specification:

Vehicle Type	Refrigerated Van
Place of Origin	China
Tire specifications	195/75R16LT
Number of tires	6
Fuel type	diesel fuel
