

Portable Refrigerated Trucks Icecream Refrigerated Van Freezer 1T-10T

Our Product Introduction

for more products please visit us on commercial-autos.com

Basic Information

- Place of Origin: henan
- Brand Name: Refrigerated Van
- Minimum Order Quantity: 1
- Price: Available for negotiation
- Packaging Details: Waxing in Bulk ship, Roro ship, Container
- Delivery Time: 30-45 working days
- Payment Terms: T/T
- Supply Ability: 1,000 units per month

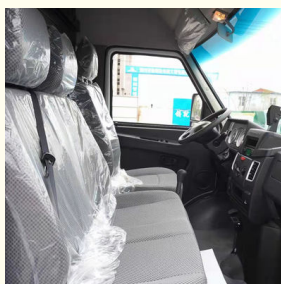

Product Specification

- Model: CLW5041XLCNJ6
- Transmission Type: Automatic
- Condition: New
- Horsepower: < 150hp
- Emission Standard: Euro 6
- Dimensions (L X W X H) (mm): 5995x2000x2800(mm)
- Box Dimensions (L X W X H) (mm): 3360x1640x1550(mm)
- Gross Vehicle Weight: ≤5T
- After-sales Service Provided: Video Technical Support, Online Support
- Maximum Torque(Nm): ≤500Nm
- Capacity (Load): 1-10T
- Engine Capacity: 4 - 6L
- Wheelbase: 3310mm

Product Description

Portable Refrigerated Trucks Icecream Refrigerated Van Freezer Refrigerator Box Transportation Delivery

Product features:

Refrigeration system: Refrigerated trucks are equipped with refrigeration units that can provide continuous refrigeration to maintain the interior of the car in a specific low-temperature environment. They are suitable for transporting frozen foods, dairy products, vegetables and fruits, vaccines and medicines, and other goods that need to be stored at low temperatures.

Thermal insulation performance: The car compartment is made of high-performance thermal insulation materials such as polyurethane, supplemented by fiberglass, color steel plates or stainless steel materials to reduce heat exchange and maintain the stability of the temperature inside the car compartment.

Product usage:

A Refrigerator Truck is a temperature controlled vehicle designed for transporting chilled and frozen goods. It is equipped with advanced brakes, such as ABS, and a high-performance engine, typically fueled by diesel. It also features an insulated body made of foam, allowing it to maintain freezing temperatures during delivery. This makes it an ideal choice for transporting refrigerated goods, such as food and pharmaceutical products, over long distances. With its reliable and efficient performance, the Refrigerator Truck is an excellent choice for businesses that need to deliver goods that require temperature control.

Product advantages:

Stable temperature control: Refrigerated trucks are equipped with professional refrigeration systems that can maintain a constant temperature during transportation to ensure the freshness and quality of the goods.

Flexible transportation capacity: Compared with fixed cold storage, refrigerated trucks can flexibly transport goods from one location to another to meet the needs of different regions.

Specification:

Vehicle Type	Refrigerated Van
Place of Origin	China
Tire specifications	195/75R16LT
Number of tires	6
Fuel type	diesel fuel
