

THB52 Concrete Pump Truck DongFeng Truck Mounted Concrete Pump 22M³/H

Our Product Introduction

for more products please visit us on commercial-autos.com

Basic Information

- Place of Origin: Henan, China
- Brand Name: DongFeng
- Minimum Order Quantity: 1
- Price: Available for negotiation
- Packaging Details: Waxing in Bulk ship, Roro ship, Container
- Delivery Time: 30-45 working days
- Payment Terms: T/T
- Supply Ability: 1,000 units per month

Product Specification

- Applicable Industries: Construction Works
- Showroom Location: None
- Condition: New
- Power Type: Diesel
- Weight: 18000 Kg
- Dimension(L*W*H): 2800 2500 3800
- Warranty: 1 Year
- UNIQUE SELLING POINT: Large Volume Pump System
- Max. Vertical Conveying Distance: 60M
- Max. Horizontal Conveying Distance: 50M
- Productivity: 22M³/H
- Machinery Test Report: Provided
- Video Outgoing-inspection: Provided
- Marketing Type: Hot Product 2019

Product Description

Factory Direct Sales DongFeng Heavy Industry THB52 Concrete Pump Truck

Product features:

Smaller shaking during concrete pouring, which ensures the stability of the boom and avoids the large swing of the hose. It can complete the conveying and distributing of concrete at the site at one time at the same time. It has the features of good pumping performance, large range of distribution, self-propelled, flexible and easy to transfer and so on.

Product usage:

Construction site :In large-scale residential construction projects, concrete pump trucks can efficiently transport concrete to high-rise construction parts to ensure construction progress and quality.

Bridge engineering:It plays an important role in the concrete pouring of bridge piers, box beams and other parts. Its long arm can span complex terrain and construction obstacles.

Road construction:Provide concrete for paving highways and urban roads to ensure the smoothness and strength of the road.

Participate in the concrete construction of road slope protection, retaining walls and other ancillary facilities.

Construction of industrial facilities:Provide concrete delivery services for the foundation and structural construction of large industrial buildings such as factories and warehouses.

Product advantages:

High pumping efficiency

Improve work efficiency: Compared with the traditional concrete conveying method, the concrete pump truck can realise long-distance, high level and large amount of concrete conveying, which can greatly improve the work efficiency.

Reduce labour intensity: Concrete pump trucks can automatically transport concrete to the target location, reducing the labour intensity of manual transportation, and also reducing the input of human resources.

Specification:

Overall length	8900
Overall width	2500
Overall height	3800
Self-weight	18000
Vertical height of boom	26
Boom horizontal length	21
Vertical depth of boom	19
Minimum spreading height	7.8
Emission standard	E6
Fuel tank volume	400
