Product Description

Product features:

This dump truck has a powerful power system and can easily handle heavy-duty operations. Its dump carriage is made of high-strength wear-resistant steel plates, which is strong and durable and can withstand the test of frequent loading and unloading. The vehicle is equipped with an advanced hydraulic lifting device, which can lift smoothly and quickly, and unload materials cleanly. In addition, the cab is spacious and comfortable, equipped with user-friendly control facilities and good visibility.

Product usage:

Mainly used on construction sites to transport sand, earthwork, bricks and other building materials. In mining operations, mineral resources such as ore and coal can be transported. It is also suitable for road construction projects to transport and unload materials.

Product advantages:

Strong power and high work efficiency. Rugged and durable carriage reduces maintenance costs. The efficient lifting device saves unloading time. The comfortable cab reduces driver fatigue. The vehicle is highly adaptable and can work normally in harsh road conditions. The manufacturer provides complete after-sales service and sufficient supply of accessories.

After-sales service

AUTOKING has four overseas branches to develop overseas customers. We also carry out after-sales service guarantee for vehicles.

Is the price cheap?

The price is chosen by comparing several car manufacturers, and we also hope that customers can compare several times and finally choose our company.

Is international logistics guaranteed?

After the purchase of goods are shipped, the company tracks the order in full. Shipping video and transport video we provide for you at any time.

Specification:
