

## Dongfeng Chenglong M3 CNG Semi Trailer Tractor Truck With Cruise Control And Engine

Our Product Introduction

for more products please visit us on [commercial-autos.com](http://commercial-autos.com)

### Basic Information

- Brand Name: DONGFENG
- Minimum Order Quantity: 1
- Price: Available for negotiation
- Packaging Details: Waxing in Bulk ship, Roro ship, Container
- Delivery Time: 30-45 working days
- Payment Terms: T/T
- Supply Ability: 1,000 units per month

### Product Specification

- Condition: New
- Steering: Left
- Horsepower: > 450hp
- Emission Standard: VI
- Segement: Heavy Truck
- Market Segement: Express Transportation
- Engine Brand: Cummins
- Fuel Type: Diesel
- Engine Capacity: < 4L
- Cylinders: 6
- Gear Box Brand: DONGFENG
- Transmission Type: Manual
- Forward Shift Number: 14
- Reverse Shift Number: 2
- Maximum Torque(Nm):  $\geq 2500\text{Nm}$

## Product Description

### Product features:

Structural features: The frame of the tractor is shorter than that of an ordinary truck, but it is wider and thicker to increase load and safety. A traction saddle is installed on the frame for connecting a semi-trailer. The suspension system of the tractor may adopt independent suspension or leaf springs to adapt to different transportation needs.

Driving experience: Tractors are usually equipped with spacious and comfortable cabs, providing a good driving experience, especially suitable for long-distance driving.

Braking system: The braking system of the tractor not only controls its own brakes, but also transmits braking signals to the trailer through the pneumatic brake pipe to ensure the safe parking of the whole vehicle.

### Product advantages:

Strong traction and transportation capacity: Tractors are designed to pull trailers and usually have high traction and large load capacity, which are suitable for long-distance and large-volume cargo transportation.

High efficiency: The design of the tractor optimizes the vehicle's aerodynamic performance and power transmission efficiency, and can achieve rapid transportation while ensuring safety, thereby improving transportation efficiency.

Operation comfort: Modern tractors are usually equipped with advanced driving assistance systems and comfortable cab interiors, which improve the driver's operating convenience and driving comfort, thereby reducing fatigue from long-term driving.

### Product usage:

Rescue: used to tow damaged vehicles in the event of traffic accidents or vehicle breakdowns.

Agriculture: towing agricultural machinery, such as seeders and harvesters, to improve agricultural production efficiency.

Military: towing heavy equipment such as artillery and tanks to provide support for military operations.

### After-sales service

AUTOKING has four overseas branches to develop overseas customers. We also carry out after-sales service guarantee for vehicles.

### Is the price cheap?

The price is chosen by comparing several car manufacturers, and we also hope that customers can compare several times and finally choose our company.

### Is international logistics guaranteed?

After the purchase of goods are shipped, the company tracks the order in full. Shipping video and transport video we provide for you at any time.

### Specification:

Engine	Dongfeng Cummins
Drive form	4X2
Body length	6.65m
Body height	3.96m
Fuel type	diesel
