

Dongfeng Sinotruk 6X4 EV Dump Truck Standard Edition Pure Electric Heavy Duty Tractor Truck

Our Product Introduction

for more products please visit us on commercial-autos.com

Basic Information

- Brand Name: DONGFENG
- Minimum Order Quantity: 1
- Price: Available for negotiation
- Packaging Details: Waxing in Bulk ship, Roro ship, Container
- Delivery Time: 30-45 working days
- Payment Terms: T/T
- Supply Ability: 1,000 units per month

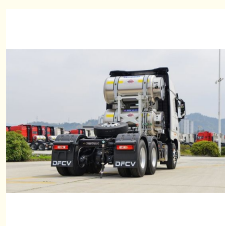

Product Specification

- Condition: New
- Steering: Left
- Horsepower: > 450hp
- Emission Standard: VI
- Segement: Heavy Truck
- Market Segement: Express Transportation
- Engine Brand: Cummins
- Fuel Type: Diesel
- Engine Capacity: < 4L
- Cylinders: 6
- Gear Box Brand: DONGFENG
- Transmission Type: Manual
- Forward Shift Number: 14
- Reverse Shift Number: 2
- Maximum Torque(Nm): ≥2500Nm

Product Description

Product features:

Electrical system: There will be an electrical connector at the rear of the tractor to transmit electrical signals to the trailer.
Power and carrying capacity: Tractors are usually equipped with high-power diesel engines to provide sufficient power to support the towing of heavy-loaded trailers and have strong carrying capacity.
Connection method: The tractor can be connected to the trailer by semi-trailer or full-trailer. The front half of the semi-trailer rides on the traction bridge of the tractor, while the full trailer is directly towed by the tractor head.

Product advantages:

Economical: New tractors, such as electric tractors and LNG (liquefied natural gas) tractors, can provide lower operating costs. For example, electric tractors are generally lower in energy consumption and maintenance costs than traditional fuel vehicles, while LNG tractors have lower fuel costs due to their clean energy properties.
Environmentally friendly characteristics: Electric tractors do not produce tail gas emissions during operation, which helps reduce air pollution and greenhouse gas emissions, in line with current environmental protection trends. Although LNG tractors use fossil fuels, they have high combustion efficiency and emit fewer pollutants.

Our Product Introduction

Operation comfort: Modern tractors are usually equipped with advanced driving assistance systems and comfortable cab interiors, which improve the driver's operating convenience and driving comfort, thereby reducing fatigue from long-term driving.

Product usage:

Long-Distance Freight Transportation

The DFH4250CX17 is ideal for long-haul freight transportation. Its powerful engine and excellent fuel economy make it capable of covering vast distances without frequent refueling. This ensures that goods reach their destinations on time and in good condition, meeting the demands of the modern logistics industry.

Construction Material Hauling

In the construction sector, this tractor can efficiently haul heavy loads of construction materials such as steel, concrete, and lumber. Its robust design and strong towing capacity make it suitable for the challenging job sites and rough terrains often encountered in this industry.

Refrigerated Transport

For transporting perishable goods that require controlled temperatures, the DFH4250CX17 can be paired with refrigerated trailers. Its stable performance and reliable power supply ensure that the refrigeration units operate consistently, maintaining the quality and freshness of the cargo.

Hazardous Materials Transport

When it comes to transporting hazardous materials, safety is of utmost importance. The DFH4250CX17 is equipped with safety features and meets strict regulatory standards to ensure the secure transportation of dangerous substances, minimizing risks and protecting the environment and public safety.

After-sales service

AUTOKING has four overseas branches to develop overseas customers. We also carry out after-sales service guarantee for vehicles.

Is the price cheap?

The price is chosen by comparing several car manufacturers, and we also hope that customers can compare several times and finally choose our company.

Is international logistics guaranteed?

After the purchase of goods are shipped, the company tracks the order in full. Shipping video and transport video we provide for you at a ny time.

Specification:

Engine	Dongfeng Cummins
Drive form	4X2
Boby length	6.65m
Body height	3.96m
Fuel type	diesel
