

Tractor-Truck Freight Transport Tractor 6X4 460HP Tractor Truck

Our Product Introduction

for more products please visit us on commercial-autos.com

Basic Information

- Brand Name: DONGFENG
- Minimum Order Quantity: 1
- Price: Available for negotiation
- Packaging Details: Waxing in Bulk ship, Roro ship, Container
- Delivery Time: 30-45 working days
- Payment Terms: T/T
- Supply Ability: 1,000 units per month

Product Specification

- Condition: New
- Steering: Left
- Horsepower: > 450hp
- Emission Standard: Euro 6
- Segement: Heavy Truck
- Market Segement: Express Transportation
- Engine Brand: Cummins
- Fuel Type: Diesel
- Engine Capacity: > 8L
- Cylinders: 6
- Gear Box Brand: DONGFENG
- Transmission Type: Manual
- Forward Shift Number: 14
- Reverse Shift Number: 2
- Maximum Torque(Nm): $\geq 2500\text{Nm}$

Product Description

Product features:

Stability and reliability: Due to the design of long wheelbase and low center of gravity, tractors are relatively stable and reliable during transportation.

Driving experience: Tractors are usually equipped with spacious and comfortable cabs, providing a good driving experience, especially suitable for long-distance driving.

Connection method: The tractor can be connected to the trailer by semi-trailer or full-trailer. The front half of the semi-trailer rides on the traction bridge of the tractor, while the full trailer is directly towed by the tractor head.

Product usage:

Agriculture: towing agricultural machinery, such as seeders and harvesters, to improve agricultural production efficiency.

Military: towing heavy equipment such as artillery and tanks to provide support for military operations.

Entertainment: towing RVs, yachts and other equipment to provide convenience for travelers.

Product advantages:

Environmentally friendly characteristics: Electric tractors do not produce tail gas emissions during operation, which helps reduce air pollution and greenhouse gas emissions, in line with current environmental protection trends. Although LNG tractors use fossil fuels, they have high combustion efficiency and emit fewer pollutants.

Operation comfort: Modern tractors are usually equipped with advanced driving assistance systems and comfortable cab interiors, which improve the driver's operating convenience and driving comfort, thereby reducing fatigue from long-term driving.

Intelligence and safety: Tractors integrate a variety of intelligent control systems, such as electronic stability program (ESC), forward collision warning (FCW) and lane departure warning (LDW) systems, which improve the driving safety of the vehicle.

After-sales service

AUTOKING has four overseas branches to develop overseas customers. We also carry out after-sales service guarantee for vehicles.

Is the price cheap?

The price is chosen by comparing several car manufacturers, and we also hope that customers can compare several times and finally choose our company.

Is international logistics guaranteed?

After the purchase of goods are shipped, the company tracks the order in full. Shipping video and transport video we provide for you at any time.

Specification:

Condition	New
Place of Origin	Hubei
Fuel Type	Diesel
Drive Wheel	6x4
Engine Capacity	> 8L
