### Basic Information

- Brand Name: DONGFENG
- Minimum Order Quantity: 1
- Price: Available for negotiation
- Packaging Details: Waxing in Bulk ship, Roro ship, Container
- Delivery Time: 30-45 working days
- Payment Terms: T/T
- Supply Ability: 1,000 units per month

### Product Specification

- Condition: New
- Steering: Left
- Horsepower: > 450hp
- Emission Standard: Euro 6
- Segement: Heavy Truck
- Market Segement: Express Transportation
- Engine Brand: Cummins
- Fuel Type: Diesel
- Engine Capacity: > 8L
- Cylinders: 6
- Gear Box Brand: DONGFENG
- Transmission Type: Manual
- Forward Shift Number: 14
- Reverse Shift Number: 2
- Maximum Torque(Nm):  $\geq 2500\text{Nm}$

## Product Description

Dongfeng Tractor Truck Head 6x4 2651 510 Horsepower With Good Price

### Product features:

Electrical system: There will be an electrical connector at the rear of the tractor to transmit electrical signals to the trailer.

Structural features: The frame of the tractor is shorter than that of an ordinary truck, but it is wider and thicker to increase load and safety. A traction saddle is installed on the frame for connecting a semi-trailer. The suspension system of the tractor may adopt independent suspension or leaf springs to adapt to different transportation needs.

Driving experience: Tractors are usually equipped with spacious and comfortable cabs, providing a good driving experience, especially suitable for long-distance driving.

### Product usage:

Transportation: used to transport heavy or large items, such as containers, heavy machinery, construction materials, etc.

Rescue: used to tow damaged vehicles in the event of traffic accidents or vehicle breakdowns.

Entertainment: towing RVs, yachts and other equipment to provide convenience for travelers.

### Product advantages:

Strong traction and transportation capacity: Tractors are designed to pull trailers and usually have high traction and large load capacity, which are suitable for long-distance and large-volume cargo transportation.

Environmentally friendly characteristics: Electric tractors do not produce tail gas emissions during operation, which helps reduce air pollution and greenhouse gas emissions, in line with current environmental protection trends. Although LNG tractors use fossil fuels, they have high combustion efficiency and emit fewer pollutants.

Wide applicability: The tractor can adapt to different transportation needs, including general cargo transportation, cold chain logistics, dangerous goods transportation, etc., and has good market adaptability.

### After-sales service

AUTOKING has four overseas branches to develop overseas customers. We also carry out after-sales service guarantee for vehicles.

### Is the price cheap?

The price is chosen by comparing several car manufacturers, and we also hope that customers can compare several times and finally choose our company.

### Is international logistics guaranteed?

After the purchase of goods are shipped, the company tracks the order in full. Shipping video and transport video we provide for you at any time.

### Specification:

Condition	New
Place of Origin	Hubei
Fuel Type	Diesel
