Product Description

Used Isuzu 4x2 Light Cargo Truck 5Ton Single Cabin ABS Antilock Braking System

Product features:

This cargo truck has a powerful power system and is equipped with a high-performance engine that can output powerful torque and easily cope with various complex road conditions and heavy-load tasks. Its frame is made of high-strength steel, which is sturdy and durable and has excellent load-bearing capacity. The vehicle is equipped with large-size tires with good grip and wear resistance. In addition, the cab is designed to be spacious and comfortable, equipped with user-friendly control facilities and comfortable seats.

Product usage:

Mainly used for long-distance cargo transportation, such as inter-provincial transportation of industrial raw materials, building materials, agricultural products, etc. It is suitable for logistics distribution centers to allocate goods between cities. In the field of engineering construction, large mechanical equipment and components are transported.

Product advantages:

strong power and high transportation efficiency. The sturdy frame and high-quality tires ensure a safe and stable ride. The comfortable cab reduces driver fatigue. The vehicle has high reliability and low maintenance costs. Good fuel economy and reduced operating costs.

After-sales service

AUTOKING has four overseas branches to develop overseas customers. We also carry out after-sales service guarantee for vehicles.

Is the price cheap?

The price is chosen by comparing several car manufacturers, and we also hope that customers can compare several times and finally choose our company.

Is international logistics guaranteed?

After the purchase of goods are shipped, the company tracks the order in full. Shipping video and transport video we provide for you at any time.
