

## 450hp Sinotruk Howo 6x4 Tipper Truck Used Dump Trucks For Sale By Owner

Our Product Introduction

for more products please visit us on [commercial-autos.com](http://commercial-autos.com)

### Basic Information

- Place of Origin: China
- Minimum Order Quantity: 1
- Price: Available for negotiation
- Packaging Details: Waxing in Bulk ship, Roro ship, Container
- Delivery Time: 30-45 working days
- Payment Terms: T/T
- Supply Ability: 1,000 units per month

### Product Specification

- Condition: New
- Steering: Left
- Horsepower: 351 - 450hp
- Emission Standard: EURO 5
- Segement: Medium-sized Truck
- Market Segement: Urban Construction Muck Transportation
- Forward Shift Number: 12
- Maximum Torque(Nm): 1500-2000Nm
- Cargo Tank Dimension: 6300X2350X1500mm
- Cargo Tank Length: 5.3-6.2M
- Gross Vehicle Weight: 5-10T
- Drive Wheel: 6x4
- Passengers: 3
- Rear Camera: 360°
- ABS(Antilock Braking): Yes

## Product Description

Sinotruk Price Sino Used And Used Trucks Dump Trucks Tipper Trucks Truck Materials Transport Dump Truck

### Product features:

This dump truck has done a lot of work in shock absorption. First of all, the leaf spring system at the cab position adopts a leaf spring with variable stiffness, and an auxiliary spring made of rubber material is added, which can not only provide comfort but also increase the service life of the leaf spring.

The suspension system of the vehicle adopts a large inclination design, which can not only alleviate the impact and vibration in the up and down directions, but also alleviate some of the left and right swings.

The airbag shock-absorbing seat at the driver's seat is made of leather, nylon and other materials, supports multiple adjustment functions, and is very comfortable to ride. It also has ventilation and heating functions.

### Product advantages:

The pedals in the cab of the vehicle adopt a three-stage design. The first stage is also a movable design. The advantage is that it will not be damaged even if it is bumped in harsh environments such as construction sites. The second and third stages adopt a fully wrapped anti-skid design, which greatly reduces the chance of slipping when pedaling in rainy and snowy weather.

In terms of interior design, the driving space of the dump truck is spacious and there is a large extension space between the main and co-driver seats. In addition, the body-in-white part of the cockpit is paved with a large area of stop glue and sound insulation cotton, which can greatly improve its sound insulation effect.

The carpet in the cockpit is also designed with an integral thickening, and its thickness is very reasonable. Coupled with the driver's foot mat, the sound insulation and heat insulation effects in the cockpit of the car are greatly improved.

### Specification:

main parameters	
Condition	New
Steering	left
Horsepower	380hp
Emission Standard	EURO 5
Forward Shift Number	12
Maximum Torque(Nm)	1900
Cargo Tank Dimension	6300X2350X1500mm
Drive Wheel	6X4
Passengers	3
