Basic Information

- Place of Origin: Hubei
- Brand Name: Dongfeng
- Minimum Order Quantity: 1
- Price: Available for negotiation
- Packaging Details: Waxing in Bulk ship, Roro ship, Container
- Delivery Time: 30-45 working days
- Payment Terms: T/T
- Supply Ability: 1,000 units per month

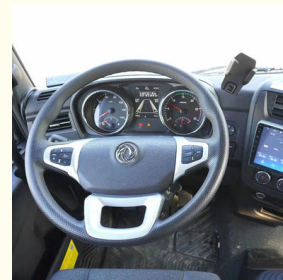

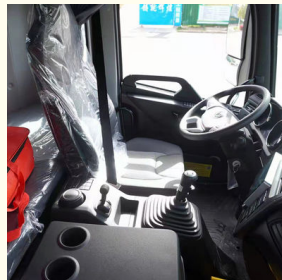

Product Specification

- Transmission Type: Manual
- Condition: New
- Horsepower: 150 - 250hp
- Emission Standard: EURO 5
- Fuel Type: Diesel
- Dimensions (L X W X H) (mm): 9230*2500*3950
- Box Dimensions (L X W X H) (mm): 6800*2450*2600
- Gross Vehicle Weight: 10-15T
- After-sales Service Provided: Video Technical Support, Online Support
- Maximum Torque(Nm): 2000-2500Nm
- Capacity (Load): 11 - 20T
- Engine Capacity: 4 - 6L
- Wheelbase: 5250mm

Product Description

Refrigerated Trucks Dongfeng Refrigerated Cold Room Van Truck 4x2 Refrigerated Truck Body

Product features:

Intelligent control system: Modern refrigerated trucks are equipped with intelligent control systems that can monitor and record parameters such as temperature and humidity in the car in real time, and automatically adjust the operating status of the refrigeration system as needed.

Environmental protection and energy saving: Refrigerated trucks take environmental factors into consideration during the design and manufacturing process, using efficient engines, energy-saving tires and optimized body structures to reduce energy consumption and emissions.

Product usage:

A Refrigerator Truck is a temperature controlled vehicle designed for transporting chilled and frozen goods. It is equipped with advanced brakes, such as ABS, and a high-performance engine, typically fueled by diesel. It also features an insulated body made of foam, allowing it to maintain freezing temperatures during delivery. This makes it an ideal choice for transporting refrigerated goods, such as food and pharmaceutical products, over long distances. With its reliable and efficient performance, the Refrigerator Truck is an excellent choice for businesses that need to deliver goods that require temperature control.

Product advantages:

Intelligent control system: Modern refrigerated trucks are equipped with intelligent control systems that can monitor and record parameters such as temperature and humidity in the car in real time, and automatically adjust the operating status of the refrigeration system as needed.

Environmental protection and energy saving: Refrigerated trucks take environmental factors into consideration during the design and manufacturing process, using efficient engines, energy-saving tires and optimized body structures to reduce energy consumption and emissions.

Specification:

Brand Name	Dongfeng
Drive type	4*2
place of Origin	China
Fuel type	Diesel fuel
Steering	Left
Condition	New
Emission Standards	Euro VI
