Product Description

Product features:

The powerful power system can cope with various complex road conditions.
The spacious and comfortable cockpit is equipped with a user-friendly control panel.
The sturdy and durable body structure can withstand the test of high-intensity operations.

Product advantages:

Low fuel consumption, effectively reducing operating costs.
The after-sales service network is extensive and maintenance is convenient and fast.
The vehicle has high stability and ensures driving safety.

Product usage:

It is often used at construction sites to transport construction materials such as sand, stones, and bricks.
It is suitable for mining and transporting mineral resources such as ore and coal.
Can play a role in large-scale infrastructure construction projects, such as road construction.

After-sales service

AUTOKING has four overseas branches to develop overseas customers. We also carry out after-sales service guarantee for vehicles.

Is the price cheap?

The price is chosen by comparing several car manufacturers, and we also hope that customers can compare several times and finally choose our company.

Is international logistics guaranteed?

After the purchase of goods are shipped, the company tracks the order in full. Shipping video and transport video we provide for you at any time.
