

## 3 Tons - 5 Tons Mini Cooling Van Medium Size Refrigerated Box

Our Product Introduction

### Basic Information

- Place of Origin: Hubei
- Brand Name: Dongfeng
- Minimum Order Quantity: 1
- Price: Available for negotiation
- Packaging Details: Waxing in Bulk ship, Roro ship, Container
- Delivery Time: 30-45 working days
- Payment Terms: T/T
- Supply Ability: 1,000 units per month

### Product Specification

- Transmission Type: Manual
- Condition: New
- Horsepower: 150 - 250hp
- Emission Standard: EURO 5
- Fuel Type: Diesel
- Dimensions (L X W X H) (mm): 9230\*2500\*3950
- Box Dimensions (L X W X H) (mm): 6800\*2450\*2600
- Gross Vehicle Weight: 10-15T
- After-sales Service Provided: Video Technical Support, Online Support
- Maximum Torque(Nm): 2000-2500Nm
- Capacity (Load): 11 - 20T
- Engine Capacity: 4 - 6L
- Wheelbase: 5250mm

## Product Description

### Product features:

**Thermal insulation performance:** The car compartment is made of high-performance thermal insulation materials such as polyurethane, supplemented by fiberglass, color steel plates or stainless steel materials to reduce heat exchange and maintain the stability of the temperature inside the car compartment.

**Portability:** Refrigerated trucks are usually used to transport items that are not easy to store for a long time. Therefore, despite the refrigeration equipment, they still need to be delivered to the destination quickly to keep the goods fresh.

### Product usage:

A Refrigerator Truck is a temperature controlled vehicle designed for transporting chilled and frozen goods. It is equipped with advanced brakes, such as ABS, and a high-performance engine, typically fueled by diesel. It also features an insulated body made of foam, allowing it to maintain freezing temperatures during delivery. This makes it an ideal choice for transporting refrigerated goods, such as food and pharmaceutical products, over long distances. With its reliable and efficient performance, the Refrigerator Truck is an excellent choice for businesses that need to deliver goods that require temperature control.

### Product advantages:

**Thermal insulation performance:** The car compartment is made of high-performance thermal insulation materials such as polyurethane, supplemented by fiberglass, color steel plates or stainless steel materials to reduce heat exchange and maintain the stability of the temperature inside the car compartment.

**Portability:** Refrigerated trucks are usually used to transport items that are not easy to store for a long time. Therefore, despite the refrigeration equipment, they still need to be delivered to the destination quickly to keep the goods fresh.

### Specification:

Brand Name	Dongfeng
Drive type	4*2
place of Origin	China
Fuel type	Diesel fuel
Steering	Left
Condition	New
Emission Standards	Euro VI
