## Product Description

Howo Dump Trucks Dumper Truck 6x4 Tipper Dump Lorry Truck Dump Truck 15 Ton

### Product features:

The driving space of this dump truck is quite satisfactory, comfortable and spacious. It is also equipped with a common seat cushion, which is soft and well-enclosed so that people will not feel back pain even if they sit for a long time.

When driving on bumpy roads, it is particularly comfortable to pass over speed bumps, and it is very comfortable to slide over them. The high-power air conditioner can cool the high-temperature vehicle to a suitable temperature in time. After closing the windows, no obvious noise will be transmitted in, and the mute effect is very good.

The steering wheel feels great, easy to control, and accurate in direction. The overall body is slightly low, with strong grip and a very stable driving process.

The energy consumption of this dump truck reaches an average of 31.88L/100km. In the case of empty cargo and traffic jam, the energy consumption fluctuates around 21.25L. When driving fully loaded at an average speed of 100km/h, the actual energy consumption is 42L.

### Product advantages:

Taking into account the body stability of the dump truck when it is lifted, this Howo is equipped with a sturdy anti-roll bar to further improve the chassis stability of the vehicle.

In terms of tires, this vehicle uses Linglong tires with a specification of 12.00R20, model LLA08, and a tire load level of 154/151, which fully meets the requirement of a total vehicle and cargo weight of 31 tons.

At the same time, taking into account the working environment of the muck truck, this dump truck uses an oil bath air filter to improve the life and filtering effect of the air filter and ensure that the engine can obtain clean air.

### Specification:
