

10m3 Isuzu Truck Dump Used Right Hand Drive Truck Liugong Mining Dump Truck

Our Product Introduction

for more products please visit us on commercial-autos.com

Basic Information

- Place of Origin: China
- Minimum Order Quantity: 1
- Price: Available for negotiation
- Packaging Details: Waxing in Bulk ship, Roro ship, Container
- Delivery Time: 30-45 working days
- Payment Terms: T/T
- Supply Ability: 1,000 units per month

Product Specification

- Condition: New
- Steering: Left
- Horsepower: 351 - 450hp
- Emission Standard: EURO 5
- Segement: Medium-sized Truck
- Market Segement: Urban Construction Muck Transportation
- Forward Shift Number: 12
- Maximum Torque(Nm): 2000-2500Nm
- Cargo Tank Dimension: 6300X2350X1500mm
- Cargo Tank Length: 4.2-5.3m
- Gross Vehicle Weight: 5-10T
- Drive Wheel: 6x4
- Passengers: 3
- Rear Camera: 360°
- ABS(Antilock Braking): Yes

Product Description

Used Right Hand Drive Truck 6*4 Parts Liugong Mining Dump Truck 10m3 Isuzu Truck Dump

Product features:

Equipped with multiple safety systems, including braking system, suspension system, anti-rollover system, etc., it can provide stable driving and safe operation guarantee

The air conditioning design conforms to the thermal principles of the human body and the temperature is properly controlled.

The sound insulation effect of this car is very strong and it is very friendly to drivers who are sensitive to noise.

The steering wheel has moderate change of direction and even turning force, allowing you to turn quickly and confidently. The dump truck's posture is particularly stable when making sharp turns, and the shock absorber can also provide strong support for the vehicle body.

In terms of power, the Howo dump truck is equipped with a high-performance engine, which provides strong power and good fuel economy to meet the needs of various working conditions.

Product advantages:

There are two ultrasonic radars installed on the right side of the bumper, which can detect obstacles up to 2.5 meters away.

When turning right at an intersection, if a pedestrian or vehicle enters this area, it will immediately alert you.

In order to make it more stable and safer, the actual vehicle model has undergone many optimization designs for lifting, such as widening the frame, widening the leaf spring distance, widening the front wheel track, etc., which greatly improves both driving safety and lifting stability.

This dump truck uses high-strength steel to make its body and chassis. It has high load-bearing capacity and pressure resistance, can provide strong power and good climbing ability, and can adapt to various roads and working conditions.

Specification:

main parameters	
Condition	New
Steering	left
Horsepower	380hp
