

EURO 5 Sinotruk Howo 6x4 Dump Truck 380hp 1500Nm-2000Nm Torque

Our Product Introduction

for more products please visit us on commercial-autos.com

Basic Information

- Place of Origin: China
- Minimum Order Quantity: 1
- Price: Available for negotiation
- Packaging Details: Waxing in Bulk ship, Roro ship, Container
- Delivery Time: 30-45 working days
- Payment Terms: T/T
- Supply Ability: 1,000 units per month

Product Specification

- Condition: New
- Steering: Left
- Horsepower: 251 - 350hp
- Emission Standard: EURO 5
- Segement: Medium-sized Truck
- Market Segement: Engineering Transportation
- Forward Shift Number: 12
- Maximum Torque(Nm): 1500-2000Nm
- Cargo Tank Dimension: 6300X2350X1500mm
- Cargo Tank Length: 5.3-6.2M
- Gross Vehicle Weight: 5-10T
- Drive Wheel: 6x4
- Passengers: 3
- Rear Camera: 360°
- ABS(Antilock Braking): Yes

Product Description

Mini Howo Dump Truck Sinotruk Howo Dump Truck 6x4 Dump Trucks Tires Size

Product features:

The new safety configuration and electronic control system can improve the safety of vehicle operation, the transmission system can reduce the engine speed to improve fuel economy, and the diesel filter can reduce engine pollution. The adjustable suspension system and fully enclosed fuel tank design facilitate maintenance; the self-unloading design enables quick loading and unloading, improving logistics efficiency. The grille in the middle of this car adopts an inverted trapezoidal honeycomb design, and the Jiefang car logo in the middle enhances the appearance. The middle of the lower bumper is equipped with a channel-type wide-body foot pedal, which is convenient for the driver to clean and maintain. The integrated headlights on both sides have LED light sources, and the convex fog lights below further improve transportation safety. The side of the vehicle body uses a three-layer wide-body hollow aluminum alloy foot pedal, which makes it easier for the driver to get on and off the vehicle while reducing stains from entering the cab and keeping the interior clean.

Product advantages:

The car uses more high-tech configurations, including LED daytime running lights, multi-function steering wheel and cruise control as standard, which is quick to operate and worry-free to drive. The 10-inch multimedia screen, mobile phone interconnection, multimedia audio and video entertainment, and built-in high-definition reversing image avoid the trouble of aftermarket modification. The integrated all-metal front bumper is designed to be easy to repair even after being bumped due to the construction site environment. There is also an oversized through-type pedal on the bumper, which makes it easier to clean the glass. It uses a fuel-saving and environmentally friendly engine with high output power, strong climbing ability and fuel saving.

Specification:

main parameters	
Condition	New
Steering	left
Horsepower	380hp
Emission Standard	EURO 5
Forward Shift Number	12
Maximum Torque(Nm)	1900
Cargo Tank Dimension	6300X2350X1500mm
Drive Wheel	6X4
Passengers	3
Rear Camera	360°
ABS(Antilock Braking System)	YES
ESC(Electronic Stability Control System)	YES
Touch Screen	YES
