Product Description

Product features:

Equipped with dual power sources, it can be switched between fuel power and electric drive to adapt to different operating environments.
Installed with automatic holding wheel clamps, which can quickly and firmly fix the wheels of faulty vehicles.
Equipped with emergency lighting system to provide sufficient lighting in case of sudden power failure or insufficient light.

Product usage:

Rescue vehicles near gas stations due to fuel exhaustion or other malfunctions, electric power drive can avoid open flame hazards.
Provide towing for electric vehicles in remote areas that cannot start due to power failure.
Assist in dealing with vehicle breakdowns in tunnels, the emergency lighting system ensures smooth rescue.

Product advantages:

Dual power sources improve operational flexibility and adaptability, ensuring that rescue missions are not limited by energy.
Automatic clamping wheel clamps are easy to operate and firmly fixed, improving rescue efficiency and safety.
Emergency lighting system provides lighting support in special circumstances to guarantee the rescue work continues.

After-sales service

AUTOKING has four overseas branches to develop overseas customers. We also carry out after-sales service guarantee for vehicles.

Is the price cheap?

The price is chosen by comparing several car manufacturers, and we also hope that customers can compare several times and finally choose our company.

Is international logistics guaranteed?

After the purchase of goods are shipped, the company tracks the order in full. Shipping video and transport video we provide for you at any time.
