## Product Description

### Product features:

The frame is made of high-strength alloy steel, which has super load-bearing capacity and can carry dozens of tons of heavy loads; it is equipped with high-torque power system, which has strong climbing ability and can adapt to complex terrain; it is equipped with multiple sets of oversized and highly wear-resistant tires, which can effectively disperse the weight and ensure driving stability.

### Product usage:

Mainly used in large-scale engineering construction, such as transporting large excavators, loaders and other engineering machinery and equipment; in bridge construction, lifting bridge prefabricated parts; can also be used for large-scale factory equipment handling, to ensure the installation and relocation of production equipment.

### Product advantages:

sturdy frame to ensure transport safety and reduce the risk of damage to the goods; strong power to adapt to various working conditions, improve transport efficiency; high wear-resistant tires to reduce the frequency of replacement, reduce the cost of use, and good driving stability, can be safely transported under complex road conditions.

### After-sales service

AUTOKING has four overseas branches to develop overseas customers. We also carry out after-sales service guarantee for vehicles.

### Is the price cheap?

The price is chosen by comparing several car manufacturers, and we also hope that customers can compare several times and finally choose our company.

### Is international logistics guaranteed?

After the purchase of goods are shipped, the company tracks the order in full. Shipping video and transport video we provide for you at any time.

### Specification:

|                     |                |
|---------------------|----------------|
| The main parameters |                |
| Drive type          | 4X2            |
| Wheelbase           | 3600mm         |
| Dimensions          | 5.995×2.3×2.3m |
| Max. speed          | 105km/h        |
| Max. horsepower     | 160hp          |
| Max. output power   | 115kW          |
| Fuel type           | diesel         |
| Number of tires     | 6              |
| Tire specifications | 7.00R16LT 8PR  |
| Displacement        | 2.498L         |
