Basic Information

- Place of Origin: Henan, China
- Brand Name: SINOTRUCK
- Minimum Order Quantity: 1
- Price: Available for negotiation
- Packaging Details: Waxing in Bulk ship, Roro ship, Container
- Delivery Time: 30-45 working days
- Payment Terms: T/T
- Supply Ability: 1,000 units per month

Product Specification

- Condition: New
- Steering: Left
- Horsepower: 351 - 450hp
- Emission Standard: Euro 2
- Segment: Heavy Truck
- Market Segment: Urban Construction Muck Transportation
- Engine Brand: WEICHAI
- Fuel Type: Diesel
- Engine Capacity: > 8L
- Cylinders: 6
- Gear Box Brand: SINOTRUCK
- Transmission Type: Manual
- Forward Shift Number: 10
- Reverse Shift Number: 2
- Maximum Torque(Nm): 1000-1500Nm

Product Description

Product features:

Powerful, efficient and energy-saving. The HOWO NX380 Euro II dump truck is equipped with the MC09.38-50 engine independently developed by Sinotruk. This engine adopts in-line, four-stroke, supercharged intercooling technology, and is equipped with the BOSCH high-pressure common rail CP3.4+ system to ensure efficient and stable power output. Its maximum horsepower reaches 380 horsepower, the maximum output power is 276kW, and the maximum torque reaches 1800N·m. The maximum torque output can be achieved within the speed range of 1100-1400rpm. Such a power configuration enables the HOWO NX380 Euro II dump truck to easily cope with various complex working conditions while meeting the needs of high efficiency and energy saving.

Product usage:

Urban construction slag transportation. During urban construction, a large amount of slag needs to be transported and processed. With its large-capacity cargo box and efficient dumping capacity, the HOWO NX380 Euro II dump truck can quickly complete the loading and unloading of slag and improve transportation efficiency. At the same time, its sturdy body structure and excellent shock absorption performance ensure the stability and safety of the vehicle under complex road conditions.

Product advantages:

Solid body structure. Overall steel frame structure: The HOWO NX380 Euro II dump truck adopts an integral steel frame structure cab, which not only makes the body more solid and firm, but also has strong anti-collision and anti-external pressure capabilities. This design can effectively protect the safety of drivers and passengers in unexpected situations.

High-standard welding process: The body is welded on a fully automatic robot production line, all using modern program control operations, reaching the world's advanced level. The high standard of welding technology ensures the stability and safety of the body structure.

After-sales service

AUTOKING has four overseas branches to develop overseas customers. We also carry out after-sales service guarantee for vehicles.

Is the price cheap?

The price is chosen by comparing several car manufacturers, and we also hope that customers can compare several times and finally choose our company.

Is international logistics guaranteed?

After the purchase of goods are shipped, the company tracks the order in full. Shipping video and transport video we provide for you at any time.

Specification:

Condition	New
Horsepower	351 - 450hp
Emission Standard	Euro 2
Market Segement	Engineering transportation
Gross Vehicle Weight	20-25T
Drive Wheel	6x4
After-sales Service Provided	Video technical support, Online support
