Product Description

Product features:

Adopting high-strength alloy steel to build the body, with strong load-bearing capacity, can withstand more than [X] tons of towing weight, sturdy and durable, fearless of harsh working conditions.

Equipped with high torque diesel engine, strong power, even in the face of heavy vehicles and complex terrain, can easily cope with, to ensure the smooth progress of rescue operations.

Installed with multiple sets of oversized off-road tires, it has strong grip and good passability, and can drive stably in mud, sand and other special road conditions to ensure rescue efficiency.

Product usage:

Mainly used for highway fault rescue of large trucks, buses and other heavy vehicles, towing them quickly away from the accident scene and restoring the smoothness of the road.

In the large engineering construction site, to assist in moving the engineering machinery and equipment that can not be moved due to failure, such as excavators, loaders, etc., to protect the progress of the project.

Responding to road rescue after natural disasters, such as after earthquakes and mudslides, clearing damaged vehicles and obstacles on the road to open up channels for subsequent rescue work.

Product advantages:

Sturdy body and strong power, so that the trailer can be able to handle the rescue task of heavy vehicles, to ensure that the rescue is safe and reliable.

Off-road tires adapt to a variety of complex road conditions, greatly expanding the scope of rescue, to ensure that in any environment can reach the rescue site in a timely manner.

Efficient rescue capability, can quickly solve the problem of road congestion, reduce economic losses and maintain traffic order.

After-sales service

AUTOKING has four overseas branches to develop overseas customers. We also carry out after-sales service guarantee for vehicles.

Is the price cheap?

The price is chosen by comparing several car manufacturers, and we also hope that customers can compare several times and finally choose our company.

Is international logistics guaranteed?

After the purchase of goods are shipped, the company tracks the order in full. Shipping video and transport video we provide for you at any time.

Specification:

The main parameters	
Drive type	4X2
Wheelbase	3600mm
Dimensions	5.995×2.3×2.3m
Max. speed	105km/h
Max. horsepower	160hp
Max. output power	115kW
Fuel type	diesel
Number of tires	6
Tire specifications	7.00R16LT 8PR

Displacement

2.498L
