Product Description

Left Steering HOWO 8x4 Dump Truck With 10 Forward Shift Number And Hydraulic Cylinders

Product features:

Body structure: The body frame is made of high-strength steel, with excellent load-bearing capacity and torsional rigidity, and can withstand high-intensity operations under harsh working conditions.

Chassis system: The specially reinforced chassis system, including the front axle, rear axle and suspension system, ensures the stability and passability of the vehicle under various road conditions.

Cargo box design: The cargo box of the dump truck is usually made of high-strength materials, with a large volume and reasonable structural layout, which can meet the loading requirements of different goods. At the same time, the lifting mechanism of the cargo box is reasonably designed and easy to operate, which improves the loading and unloading efficiency.

Product usage:

Mining operations. For mining operations, the HOWO NX380 84 dump truck can also play an important role. The mining operation environment is harsh, and the durability and power performance of the vehicle are extremely high. With its sturdy body structure and powerful power output, the HOWO NX380 84 dump truck can easily cope with the harsh working conditions of the mine to ensure the smooth progress of the operation.

Special operations. In addition to the above application scenarios, the HOWO NX380 8*4 dump truck can also be customized and modified according to customer needs for various special operations. For example, fire trucks, rescue trucks, sprinkler trucks, etc. can be equipped with corresponding equipment and devices to meet the special needs of different fields.

Product advantages:

It complies with Euro II emission standards and meets the requirements of local environmental regulations. This makes the vehicle more competitive in the local market and can quickly occupy market share.

It has certain price advantages and can meet customers' pursuit of cost-effectiveness. At the same time, its excellent power performance, load-bearing capacity and durability also make the vehicle have higher economic benefits during use.

After-sales service

AUTOKING has four overseas branches to develop overseas customers. We also carry out after-sales service guarantee for vehicles.

Is the price cheap?

The price is chosen by comparing several car manufacturers, and we also hope that customers can compare several times and finally choose our company.

Is international logistics guaranteed?

After the purchase of goods are shipped, the company tracks the order in full. Shipping video and transport video we provide for you at any time.
