

Logistics And Transportation Tractor Truck 4*2 ACC Cruise Control

Our Product Introduction

for more products please visit us on commercial-autos.com

Basic Information

- Brand Name: SINOTRUCK
- Minimum Order Quantity: 1
- Price: Available for negotiation
- Packaging Details: Waxing in Bulk ship, Roro ship, Container
- Delivery Time: 30-45 working days
- Payment Terms: T/T
- Supply Ability: 1,000 units per month

Product Specification

- Condition: New
- Steering: Left
- Horsepower: 351 - 450hp
- Emission Standard: EURO 5
- Segement: Medium-sized Truck
- Market Segement: Logistics Transportation
- Engine Brand: WEICHAI
- Fuel Type: Diesel
- Engine Capacity: 4 - 6L
- Cylinders: 6
- Gear Box Brand: SINOTRUCK
- Transmission Type: Automatic
- Forward Shift Number: 8
- Reverse Shift Number: 2
- Maximum Torque(Nm): 1500-2000Nm

Product Description

Logistics And Transportation Factory Direct Sales 2023 4*2 Tractor ACC Cruise Control

Product features:

Advanced technology: Through international cooperation and independent innovation, advanced technologies have been integrated. For example, the engines equipped with some models are equipped with electronically controlled high-pressure common rail technology and Jacobs engine braking technology, which improves the performance of various systems of the vehicle.

Diversified product lines: Covering tractors of various types and configurations to meet different transportation needs and working conditions, such as models suitable for port transportation, long-distance logistics, short-distance transportation and other scenarios.

Product usage:

Port transportation: used for the transportation of cargo at the terminal, such as the traction of containers. It is characterized by low speed, high torque, wide field of vision, flexible steering, smooth starting, automatic gear shifting, high reliability, and convenient unloading and hanging.

Long-distance logistics: In long-distance highway transportation, tractors can tow large trailers to transport various goods, such as express delivery, daily necessities, industrial raw materials, etc.

Product advantages:

Mature technology: Dongfeng Tianlong KL hybrid tractor adopts a relatively mature hybrid technology. Its technical route is to add a motor behind the internal combustion engine. When the engine exceeds the economic speed range, the motor intervenes to supplement the power, and when there is excess power or braking, the motor can be charged.

Good fuel saving effect: Hybrid technology can reduce fuel consumption, saving about 8% of fuel consumption in hilly areas and more than 10% of fuel consumption in mountainous areas.

After-sales service

AUTOKING has four overseas branches to develop overseas customers. We also carry out after-sales service guarantee for vehicles.

Is the price cheap?

The price is chosen by comparing several car manufacturers, and we also hope that customers can compare several times and finally choose our company.

Is international logistics guaranteed?

After the purchase of goods are shipped, the company tracks the order in full. Shipping video and transport video we provide for you at any time.

Specification:

Bulletin Model.	ZZ4257V344KF1
Drive Type.	6X4
Wheelbase.	3225+1350mm
Engine:	China National Heavy Duty Truck MC13H.51-61
Gearbox:	Zhongbai Lan Synopsis SINOTRUK 16 gears
Length.	7.215 meters
Width.	2.53m
Height.	3.82m
Gross Mass.	25 tons

Gross Towing Mass.	40 tons
