

Second Hand Shacman Dump Truck 6x4 Euro 2 10 Wheel Tipper Truck

Basic Information

- Place of Origin: Henan, China
- Brand Name: SINOTRUCK
- Minimum Order Quantity: 1
- Price: Available for negotiation
- Packaging Details: Waxing in Bulk ship, Roro ship, Container
- Delivery Time: 30-45 working days
- Payment Terms: T/T
- Supply Ability: 1,000 units per month

Product Specification

- Condition: New
- Steering: Left
- Horsepower: 351 - 450hp
- Emission Standard: Euro 2
- Segement: Mini Truck
- Market Segement: Engineering Transportation
- Engine Brand: WEICHAI
- Fuel Type: Diesel
- Engine Capacity: < 4L
- Gear Box Brand: SINOTRUCK
- Transmission Type: Manual
- Forward Shift Number: 10
- Reverse Shift Number: 2
- Maximum Torque(Nm): 1500-2000Nm
- Cargo Tank Dimension: 5600x2300x1500

Product Description

Second Hand Shacman Dump Truck 6x4 10 Wheels Small Tipper Reverse Shift Number 2 Engineering Transportation

Product features:

Load-bearing and drive. Drive form: The 6*4 drive form (front double and rear four) enables the vehicle to have good traction capacity and carry heavier cargo. This design is particularly suitable for working conditions that require high load-bearing capacity and good passability.

Load-bearing capacity: The total mass, vehicle weight and rated load of the vehicle vary according to the specific configuration, but generally have a high load-bearing capacity. For example, the total mass of some configurations can reach 31 tons and the rated load can reach more than 18 tons, which is suitable for transporting bulk goods or heavy engineering operations.

Body and chassis. Body size: The length, width and height of the body vary according to the specific configuration and regulatory requirements. Generally speaking, the body length of this model may exceed 8 meters, and the width and height are also larger to accommodate more cargo.

Chassis parameters: The chassis design is sturdy and durable, and is made of high-quality materials and advanced processes. Parameters such as the description of the front and rear axles, wheelbase, approach angle and departure angle all reflect the stability and passability of the vehicle.

Product usage:

Mining. During mining, the HOWO NX380 6*4 dump truck can be used to transport heavy objects such as ore and slag. Its high load-bearing capacity and powerful power performance provide strong support for mining production. At the same time, the self-unloading function also facilitates the unloading of ore and improves the working efficiency.

Engineering operations. This model can play an important role in various engineering operation sites (such as infrastructure construction, road construction, etc.). Its self-unloading function makes cargo unloading more convenient and quick, meeting the engineering operation's demand for efficiency and convenience. At the same time, its stable performance and good passability also ensure the smooth progress of engineering operations.

Product advantages:

Powerful power. The Sinotruk MC series engine provides the vehicle with strong power output, ensuring that the vehicle can maintain excellent performance under various working conditions. Whether it is climbing or accelerating, it can easily cope with it.

Strong carrying capacity. The vehicle has a high total mass and a large rated load, which enables the vehicle to easily carry bulk goods or perform heavy engineering operations. This is especially important for application scenarios that require high carrying capacity.

Efficient self-unloading function. The design of the self-unloading function makes cargo unloading more convenient and quick, improves operating efficiency and reduces labor intensity. This has significant advantages for working conditions that require frequent cargo unloading.

After-sales service

AUTOKING has four overseas branches to develop overseas customers. We also carry out after-sales service guarantee for vehicles.

Is the price cheap?

The price is chosen by comparing several car manufacturers, and we also hope that customers can compare several times and finally choose our company.

Is international logistics guaranteed?

After the purchase of goods are shipped, the company tracks the order in full. Shipping video and transport video we provide for you at any time.

Specification:

| | |
|----------------------|----------------------------|
| Condition | New |
| Horsepower | 351 - 450hp |
| Emission Standard | Euro 2 |
| Market Segement | Engineering transportation |
| Gross Vehicle Weight | 20-25T |
| Drive Wheel | 6x4 |
