## Product Description

### Product features:

Adopting advanced biological deodorization technology to decompose odor molecules during garbage collection and transportation, eliminating odors from the root and creating a fresh environment.

Equipped with remote monitoring system, through cell phones or computers, managers can know the location of the vehicle, operating status and garbage loading in real time, which is convenient for scheduling and management.

The vehicle is equipped with emergency braking and anti-rollover system, which can respond quickly to protect the safety of the operator and the vehicle in case of emergency.

The compression system adopts modularized design, which is easy to disassemble and maintain, shortening the maintenance time and improving the availability of the equipment.

### Product usage:

Applicable to urban residential areas, especially in areas with high requirements for environmental quality, to reduce the impact of odor on residents' lives.

In hospitals, sanatoriums and other places, to keep the air fresh and provide a good recovery environment for patients.

Used in urban waste treatment plants, as a waste pre-treatment equipment, to improve the efficiency of waste treatment.

### Product advantages:

Biological deodorization technology and remote monitoring system to improve environmental quality and management level.

Safety system guarantees operation safety, modularized design reduces maintenance difficulty and cost.

### After-sales service

AUTOKING has four overseas branches to develop overseas customers. We also carry out after-sales service guarantee for vehicles.

### Is the price cheap?

The price is chosen by comparing several car manufacturers, and we also hope that customers can compare several times and finally choose our company.

### Is international logistics guaranteed?

After the purchase of goods are shipped, the company tracks the order in full. Shipping video and transport video we provide for you at any time.

### Specification:

Brand Name	DONGFENG
Drive type	4*2
place of Origin	China
Fuel type	Diesel fuel
Steering	Left
Condition	New
Emission Standards	Euro V
