Product Description

Product features:

Equipped with new energy power system, such as pure electric or hybrid, zero or low emission, in line with environmental protection requirements and reduce air pollution.

Can compress the volume of garbage to the minimum, improve transportation efficiency and reduce transportation cost.

Equipped with oversized sewage collection box, separated from the garbage loading compartment, effectively collects garbage leachate and prevents pollution of the environment.

The vehicle adopts humanized cockpit design with reasonable layout of operation buttons and comfortable seats to reduce driver's fatigue.

Product usage:

Commonly used in urban environmental protection demonstration areas to demonstrate green waste treatment concepts and technologies.

In commercial areas, to meet the demand for high-intensity garbage collection while reducing pollution to the commercial environment.

Suitable for areas with strict noise and emission requirements, such as near schools and libraries.

Product advantages:

New energy power and high compression ratio, environmental protection and high efficiency.

Independent sewage collection tank and humanized design, protect the environment and enhance the driver experience.

After-sales service

AUTOKING has four overseas branches to develop overseas customers. We also carry out after-sales service guarantee for vehicles.

Is the price cheap?

The price is chosen by comparing several car manufacturers, and we also hope that customers can compare several times and finally choose our company.

Is international logistics guaranteed?

After the purchase of goods are shipped, the company tracks the order in full. Shipping video and transport video we provide for you at any time.
