

## Engine Capacity 162 High Capacity Cleaning Trucks For Thorough And Garbage Collection

Our Product Introduction

for more products please visit us on [commercial-autos.com](http://commercial-autos.com)

### Basic Information

- Place of Origin: Henan, China
- Brand Name: HOWO
- Price: \$16,000.00/sets  $\geq 1$  sets

### Product Specification

- Video Outgoing-inspection: Provided
- Machinery Test Report: Provided
- Core Components: Bearing, Pressure Vessel
- Drive Wheel: 4X2
- Type: Rear Loader
- Transmission Type: Automatic
- Emission Standard: Euro 3
- Fuel Type: Diesel
- Engine Capacity: 162
- Size: 8656 2525 3210
- Gross Vehicle Weight: 18000
- Warranty: 1 Year
- Weight (KG): 18000 Kg
- Applicable Industries: Construction Works
- Showroom Location: None

## Product Description

### Product features:

Equipped with a high torque engine with surging power, it can easily cope with various gradient roads even when fully loaded with garbage, ensuring efficient transportation.

The garbage compression mechanism is made of wear-resistant alloy material, treated with special technology, which is strong in compression resistance and can withstand high-intensity compression operation with long service life.

The advanced hydraulic balancing system ensures even distribution of garbage during compression and transportation, preventing the vehicle's center of gravity from shifting and guaranteeing driving safety.

The loading compartment adopts double-layer sealing design, with the inner layer preventing seepage and leakage and the outer layer sound insulation and deodorization, preventing garbage pollution and odor spreading in all aspects.

### Product usage:

It is suitable for garbage collection on the main road of the city to quickly clean up a large amount of garbage and keep the traffic road neat and clean.

In large-scale logistics parks, to deal with mountains of packaging garbage and waste materials, to maintain the efficient operation of the park.

Used in large construction sites, centralized treatment of construction waste generated during the construction process, such as bricks, wood, plastics and so on.

### Product advantages:

Strong power guarantees smooth transportation and reduces the residence time of garbage on the road.

Durable compression mechanism reduces the frequency of equipment replacement and saves operating costs.

Hydraulic balancing system and double-layer sealing design not only guarantee the traveling safety, but also protect the surrounding environment.

### After-sales service

AUTOKING has four overseas branches to develop overseas customers. We also carry out after-sales service guarantee for vehicles.

### Is the price cheap?

The price is chosen by comparing several car manufacturers, and we also hope that customers can compare several times and finally choose our company.

### Is international logistics guaranteed?

After the purchase of goods are shipped, the company tracks the order in full. Shipping video and transport video we provide for you at any time.

### Specification:

Brand Name	DONGFENG
Drive type	4*2
place of Origin	China
Fuel type	Diesel fuel
Steering	Left
Condition	New
Emission Standards	Euro V
