Product Description

Product features:

The lifting arm of the small hydraulic lifting garbage truck can be rotated at multiple angles, which is convenient for garbage collection.

The vehicle chassis is sturdy and the tires have good abrasion resistance, adapting to a variety of road conditions.

Equipped with an automatic balancing system to keep the body stable during the lifting process.

The garbage collection box is made of easy-to-clean material for easy cleaning.

Product usage:

Used for the removal of garbage in school campus, especially when the garbage bin is placed in the corner or by the flower bed and other locations.

Collecting medical waste in hospitals, the garbage can be accurately loaded into the vehicle.

It can be used in parks to collect garbage dispersed in various places, including lawns, lakeside, etc.

Product advantages:

The multi-angle rotating lift arm increases operational flexibility and improves collection efficiency.

The sturdy chassis and wear-resistant tires guarantee the vehicle's driving performance under different road conditions.

The automatic balancing system improves operational safety and prevents accidents such as rollover.

Easy-to-clean collection box material reduces cleaning difficulty and saves time.
