Product Description

Product features:

The hydraulic lifting system of the vehicle has overload protection function to extend the service life of the equipment.
The body is made of anti-rust and corrosion-resistant material, which is beautiful and durable in appearance.
The garbage collection box is equipped with multiple garbage entrances, which is convenient for putting garbage in different directions.
The vehicle is equipped with a lighting system, which allows it to operate in a low-light environment.

Product usage:

Suitable for collecting residents' living garbage in urban hutongs to improve collection efficiency.
In the nighttime garbage removal work, it guarantees the smooth running of the work.
It can be used for garbage transfer in small community garbage stations, quick loading and unloading.

Product advantages:

Overload protection function avoids hydraulic system damage due to overload and reduces maintenance cost.
Anti-corrosion material keeps the body in good condition and reduces maintenance cost.
Multiple garbage entrances facilitate garbage drop-off and save time.
Lighting system enables the vehicle to operate normally at night or in poorly lit environments, increasing the utilization rate.
