Product Description

Product features:

The vehicle has a large compartment volume, which can load more goods, and the surface of the compartment is treated with anti-rust treatment.
Dongfeng dump truck adopts advanced transmission with smooth gear shift and high transmission efficiency.
The braking system of the vehicle has excellent performance, with sensitive braking and strong braking force, which ensures the traveling safety.
The appearance design is simple and generous, with smooth lines, and at the same time has good aerodynamic performance.

Product advantages:

Large-volume compartment improves single transportation volume and reduces transportation cost.
Advanced transmission improves driving experience and reduces energy loss.
Reliable braking system ensures safe braking under heavy load conditions.
Aesthetic appearance and aerodynamic design reduce wind resistance and save fuel.

Product usage:

Suitable for urban construction waste removal, fast and efficient transportation of construction waste.
In the construction of water conservancy projects, transportation of earth, stone, concrete and other materials.
For rural infrastructure construction, transporting construction materials and agricultural products.
