Product Description

Product features:

Equipped with complete basic medical equipment, such as stretcher, oxygen cylinder, first aid box, etc., to meet the initial treatment of common injuries and diseases.

The space inside the vehicle is well laid out, which is convenient for the medical staff to carry out patient care operations during traveling.

Adopting efficient ventilation system to keep the air inside the vehicle fresh and reduce the risk of cross-infection.

Product usage:

Mainly used for daily first aid tasks within the city, rapid response to traffic accidents, sudden illnesses and other emergencies.

Transferring patients with minor illnesses, such as those who need regular dialysis and rehabilitation treatment to hospitals.

On standby at the scene of large-scale activities, ready to provide medical assistance to people with sudden physical discomfort.

Product advantages:

The basic medical equipment is complete, which can provide the necessary treatment for patients at the first time.

Reasonable space layout ensures convenient operation for medical personnel and improves treatment efficiency.

Good ventilation system creates a healthy environment inside the vehicle, protecting the health of patients and medical personnel.

After-sales service

AUTOKING has four overseas branches to develop overseas customers. We also carry out after-sales service guarantee for vehicles.

Is the price cheap?

The price is chosen by comparing several car manufacturers, and we also hope that customers can compare several times and finally choose our company.

Is international logistics guaranteed?

After the purchase of goods are shipped, the company tracks the order in full. Shipping video and transport video we provide for you at any time.
