

Brand New Garbage Compactor Box Waste Collection Machine For Manufacturing Plants And Farms Garbage Compression Equipment

Our Product Introduction

for more products please visit us on commercial-autos.com

Basic Information

- Place of Origin: Hubei, China
- Brand Name: jac
- Price: CN¥47,067.15/units 1-4 units

Product Specification

- Video Outgoing-inspection: Provided
- Machinery Test Report: Provided
- Core Components: Engine, Gearbox, Motor
- Drive Wheel: 4X2
- Type: Compactor
- Transmission Type: Automatic
- Emission Standard: Euro 4
- Fuel Type: Diesel
- Engine Capacity: 110
- Size: 6920*2100*2520
- Gross Vehicle Weight: 5280
- Warranty: 1 Year
- Weight (KG): 3500 Kg
- Curb Weight(Kg): 5280
- Persons In Cab: 2

Product Description

Product features:

The appearance is painted with reflective markings and eye-catching colours, which improves nighttime recognition, ensures traffic safety, reduces the risk of accidents and protects the lives of operators.

The compression power of the refuse station adopts a double-cylinder hydraulic system, which is powerful and has a good compression effect, improving the capacity of rubbish disposal and clearing efficiency.

Built-in intelligent temperature control system regulates the internal temperature of the equipment, preventing the rubbish from fermenting under high temperature and generating odour, optimising the surrounding environment and improving the quality of life of the citizens.

Product usage:

Commonly used in urban night rubbish removal routes, to ensure the safety of staff and passing vehicles, to ensure the smooth progress of the removal work, to provide protection for the urban night environmental health.

In the vicinity of large factory canteens and restaurants, it handles food waste and catering packaging, maintains the dining environment, protects the health of staff and improves their job satisfaction.

Used for night activities in city parks, such as music festivals, light shows and other venues, to clean up the event rubbish, maintain the image of the park, and provide the public with high-quality leisure places.

Product advantages:

Reflective sign enhances night visibility, reduces the risk of accidents, protects the lives of operators, and embodies humanistic care.

Double-cylinder hydraulics provide strong compression force to increase the rubbish handling capacity, improve the clearing efficiency, and enhance the overall operational efficiency.

Intelligent temperature control reduces odour emission, optimises the surrounding environment, improves the quality of life and creates a comfortable living environment for the public.

After-sales service

AUTOKING has four overseas branches to develop overseas customers. We also carry out after-sales service guarantee for vehicles.

Is the price cheap?

The price is chosen by comparing several car manufacturers, and we also hope that customers can compare several times and finally choose our company.

Is international logistics guaranteed?

After the purchase of goods are shipped, the company tracks the order in full. Shipping video and transport video we provide for you at any time.

Specification:

Overall Dimensions (mm)	4000×2295×2450
Waste bin volume (m³)	6
Tipping bucket volume (m³)	3
Max lifting force of tipping bucket (T)	1.5
Feed inlet height (mm)	1600
Bottom beam width (mm)	1060
Guiding wheel track width (mm)	2200
