

5 10 Cmb Mobile Garbage Station Garbage Container Compression Station For Sale

Our Product Introduction

for more products please visit us on commercial-autos.com

Basic Information

- Place of Origin: Hubei, China
- Brand Name: jac
- Price: CN¥54,308.25/units 1-4 units

Product Specification

- Video Outgoing-inspection: Provided
- Machinery Test Report: Provided
- Core Components: Engine, Gearbox, Motor
- Drive Wheel: 4X2
- Type: Compactor
- Transmission Type: Automatic
- Emission Standard: Euro 4
- Fuel Type: Diesel
- Engine Capacity: 110
- Size: 6920*2100*2520
- Gross Vehicle Weight: 5280
- Warranty: 1 Year
- Weight (KG): 3500 Kg
- Curb Weight(Kg): 5280
- Persons In Cab: 2

Product Description

Product features:

The power system is driven by new energy lithium battery, zero emission, low noise, range to meet the daily cleaning needs, and fast and convenient charging, in line with the trend of green development.

Equipped with an automatic cleaning device, the storage bin is automatically flushed after each rubbish transfer, maintaining the internal hygiene of the equipment, reducing odour breeding and creating a clean environment.

The compression mechanism of the waste station is made of special alloy material, which is wear-resistant and pressure-resistant, and has a long service life, ensuring long-term stable operation and reducing the frequency of equipment replacement.

It is equipped with emergency brake and safety protection system to protect the personal safety of the operator when the equipment is moving, reduce the risk of operation, and protect the staff.

Product usage:

Commonly used in urban environmental protection demonstration areas, in line with the concept of green development, to create a clean and quiet living environment, providing residents with high-quality living space.

Around the hospital, quiet collection and treatment of medical waste packaging and other rubbish, to avoid noise interference with the patient's rest and medical work, to protect the medical environment quiet.

It can be used in high-grade residential areas to protect the quality of life of residents with environmental protection and low-noise characteristics, enhance the image of the community, and strengthen the residents' sense of well-being.

Product advantages:

New energy drive meets the trend of environmental protection, reduces operational energy consumption and pollution, helps sustainable development of the city, and contributes to the cause of environmental protection.

Automatic cleaning reduces the burden of manual cleaning, maintains the equipment neat and tidy, improves the hygiene standard of rubbish disposal, and protects public health and safety.

High-quality compression mechanism reduces the replacement cost, stable operation, guarantees the continuity of rubbish disposal work and improves work efficiency.

Safety protection ensures operational safety, reduces the incidence of accidents, protects the lives of operators, and embodies humanistic care.

After-sales service

AUTOKING has four overseas branches to develop overseas customers. We also carry out after-sales service guarantee for vehicles.

Is the price cheap?

The price is chosen by comparing several car manufacturers, and we also hope that customers can compare several times and finally choose our company.

Is international logistics guaranteed?

After the purchase of goods are shipped, the company tracks the order in full. Shipping video and transport video we provide for you at any time.

Specification:

Overall Dimensions (mm)	4000×2295×2450
Waste bin volume (m³)	6
Tipping bucket volume (m³)	3
Max lifting force of tipping bucket (T)	1.5
Feed inlet height (mm)	1600
Bottom beam width (mm)	1060
Guiding wheel track width (mm)	2200
