Product Description

Product features:

The unloading door of the dump station adopts electric roll-up design, which opens and closes quickly and is well sealed to prevent rubbish leakage.

The mobile chassis adopts special anti-skid pattern design, which can drive stably even in rainy or snowy weather to ensure the clearing task.

Equipped with emergency power supply interface, it can be accessed to the backup power supply when the utility power fails to ensure the basic operation of the equipment.

Product usage:

Suitable for modern logistics warehouses, efficiently dispose of waste packaging materials, with the rapid turnover of logistics.

Around the high-grade office buildings in the city, collecting and processing office rubbish to keep the office environment clean.

Used in urban sanitation integration projects, as a mobile node, to improve the overall waste disposal efficiency.

Product advantages:

Optimise the unloading process and eliminate secondary pollution.

Anti-skid tyres protect the operation in bad weather and expand the scope of application.

Emergency power supply interface ensures uninterrupted operation of the equipment, stable and reliable.
