## Product Description

### Product features:

The compact and beautiful design of the mobile refuse station with small footprint makes it easy to be placed in the narrow corners of the city.

Built-in high-efficiency hydraulic-driven compression mechanism with high compression ratio can quickly compact loose rubbish.

Equipped with convenient docking device, it can be seamlessly connected with all kinds of rubbish removing vehicles to realise rapid transfer.

### Product usage:

Widely used in old urban neighbourhoods to solve the problem of rubbish concentration in the case of limited space.

In small commercial neighbourhoods, it is responsible for cleaning all kinds of packaging and food waste generated by shops.

Used in school campuses to collect daily living rubbish produced by teachers and students to maintain a tidy campus.

### Product advantages:

Compact appearance fits the needs of urban confined space, easy for site selection and layout.

High compression ratio improves the storage capacity of single trip, reduces transport frequency and saves cost.

Convenient docking reduces transit time and improves overall cleaning efficiency.

### After-sales service

AUTOKING has four overseas branches to develop overseas customers. We also carry out after-sales service guarantee for vehicles.

### Is the price cheap?

The price is chosen by comparing several car manufacturers, and we also hope that customers can compare several times and finally choose our company.
