Product Description

Product features:

The power system of the mobile dump station adopts energy-saving engine or high-performance motor, which is powerful and has low energy consumption.

The body is treated with anti-rust and corrosion coating and special technology, with long-lasting bright appearance and strong resistance to wind and rain erosion.

Product usage:

Commonly used in urban night rubbish clearing lines, to ensure timely disposal of rubbish at night.

In logistics parks, it collects and handles all kinds of waste packaging materials, broken goods and other rubbish.

It can be used in rural markets to quickly clean up residual rubbish after the end of the market and restore the neatness of the site.

Product advantages:

Energy-saving power reduces operating costs and improves economic efficiency.

Anti-corrosion treatment extends equipment life and reduces appearance maintenance costs.

Simple operation reduces personnel training costs and improves work efficiency.
