## Product Description

### Product features:

The appearance is painted with reflective markings and eye-catching colours to improve nighttime recognition and ensure traffic safety.

The compression power of the refuse station adopts a double-cylinder hydraulic system, which is powerful and has a good compression effect.

Built-in intelligent temperature control system regulates the internal temperature of the equipment, preventing the rubbish from fermenting under high temperature and producing odour.

Equipped with multi-functional tool box, storing maintenance tools, spare parts, etc., convenient for on-site repair.

### Product usage:

Commonly used in urban night rubbish removal routes to ensure the safety of staff and passing vehicles.

In the vicinity of large factory canteens and restaurants, to dispose of food waste and catering packaging and maintain the dining environment.

Used in city parks for night events, such as music festivals, light shows and other venues, to clean up event rubbish.

### Product advantages:

Reflective signs improve night visibility and reduce the risk of accidents.

Dual-cylinder hydraulics provide strong compression force to improve rubbish handling capacity.

Intelligent temperature control reduces odour emission and optimises the surrounding environment.

Multi-functional tool box facilitates immediate maintenance and reduces downtime.
