Product Description

Product features:

Equipped with advanced life support equipment, such as multi-function monitor, defibrillator, ventilator, etc., which can monitor and maintain all-round vital signs of critically ill patients.

Equipped with professional medical power supply system to ensure stable operation of the equipment during long time transit and emergency power supply guarantee.

The vehicle adopts sound insulation and noise reduction design, which provides a quiet treatment environment for patients and also facilitates communication between medical personnel.

Product usage:

Undertake the long-distance transfer of seriously ill patients, such as transferring critically ill patients from primary hospitals to large hospitals.

Respond to sudden cardiac arrest, serious trauma and other acute and critical emergency care, continuous life support on the way.

Participate in large-scale disaster rescue and provide emergency intensive care for seriously injured patients.

Product advantages:

High-end medical equipment can monitor and maintain the patient's vital signs in real time, improving the success rate of rescue.

Reliable power supply system guarantees the normal operation of the equipment and avoids affecting the treatment due to power failure.

Quiet environment is conducive to patient's rest and medical personnel to focus on treatment.

After-sales service

AUTOKING has four overseas branches to develop overseas customers. We also carry out after-sales service guarantee for vehicles.

Is the price cheap?

The price is chosen by comparing several car manufacturers, and we also hope that customers can compare several times and finally choose our company.

Is international logistics guaranteed?

After the purchase of goods are shipped, the company tracks the order in full. Shipping video and transport video we provide for you at any time.
