Product Description

Product features:

Compact body design and high maneuverability make it easy to drive in narrow streets and alleys in the community. Equipped with commonly used medical examination equipment, such as blood pressure meter, blood glucose meter, electrocardiograph, etc., it is convenient to conduct health examination for community residents. Comfortable seats are set inside the vehicle to carry medical staff and patients' family members, providing humanized services.

Product usage:

To provide daily medical services to residents in the community, such as delivering medical consultations to the elderly with mobility problems.
Handle sudden illnesses and accidental injuries in the community, such as falls of the elderly and sudden illnesses of children.
Participate in community health check-up activities to provide residents with convenient medical check-up services.

Product advantages:

Compact body adapts to the community environment and responds quickly to residents' needs.
Commonly used medical equipment meets the basic medical service and first aid needs of community residents.
Humanized design provides comfortable experience for patients and their families and enhances the affinity of community medical services.

After-sales service

AUTOKING has four overseas branches to develop overseas customers. We also carry out after-sales service guarantee for vehicles.

Is the price cheap?

The price is chosen by comparing several car manufacturers, and we also hope that customers can compare several times and finally choose our company.

Is international logistics guaranteed?

After the purchase of goods are shipped, the company tracks the order in full. Shipping video and transport video we provide for you at any time.
