## Product Description

### Product features:

Equipped with a high-power engine, strong power, can quickly arrive at the rescue site in a short period of time, scrambling to save lives.

Equipped with advanced medical power supply system, which can guarantee the continuous and stable operation of all kinds of medical equipment in the vehicle, without the influence of external power.

The body is made of high-strength steel, sturdy structure, with good collision safety, to provide reliable protection for the vehicle personnel and medical equipment.

### Product usage:

Responsible for daily first aid tasks, emergency transportation and treatment of patients with sudden illnesses, such as heart disease, cerebral hemorrhage, and so on.

Responding to the scene of traffic accidents, rescuing injured people in time and sending them to hospitals for further treatment.

In natural disasters or public health events, undertake rescue and transfer work to protect the lives of affected people and patients.

### Product advantages:

Strong power ensures quick response, shortens rescue time and improves patients' chances of survival.

Stable power supply system allows the normal operation of medical equipment, providing strong support for the rescue and treatment.

Sturdy body effectively reduces the risk of accidents and ensures smooth rescue operations.

### After-sales service

AUTOKING has four overseas branches to develop overseas customers. We also carry out after-sales service guarantee for vehicles.

### Is the price cheap?

The price is chosen by comparing several car manufacturers, and we also hope that customers can compare several times and finally choose our company.

### Is international logistics guaranteed?

After the purchase of goods are shipped, the company tracks the order in full. Shipping video and transport video we provide for you at any time.
