Product Description

Product features:

Negative pressure isolation technology is used to form a negative pressure environment inside the car, preventing cross-pollution between the air inside the car and the outside air, effectively isolating viruses, bacteria and other pathogens. Equipped with efficient air purification device, it can circulate and filter the air inside the car, remove harmful microorganisms and odors, and ensure clean air inside the car. Installed with a remote medical consultation system, which enables the vehicle medical staff to communicate with hospital experts in real time, obtain professional guidance and improve the level of treatment.

Product usage:

Specialized for the transfer of infectious disease patients, such as new crown pneumonia, influenza and other virulent infectious disease patients, to protect the safety of patients and health care workers and outside personnel. During the epidemic prevention and control period, it undertakes the task of transferring suspected and confirmed patients to prevent the spread of the epidemic. Build telemedicine bridges between hospitals in remote areas and higher-level hospitals to enhance the emergency care capacity in remote areas.

Product advantages:

Negative pressure isolation and air purification technology effectively prevent the spread of pathogens and ensure public health safety. The telemedicine consultation system enhances the professionalism and accuracy of rescue treatment and provides better medical services for patients. Adapt to the needs of infectious disease prevention and control, and play a key role in epidemic prevention and control.

After-sales service

AUTOKING has four overseas branches to develop overseas customers. We also carry out after-sales service guarantee for vehicles.

Is the price cheap?

The price is chosen by comparing several car manufacturers, and we also hope that customers can compare several times and finally choose our company.

Is international logistics guaranteed?

After the purchase of goods are shipped, the company tracks the order in full. Shipping video and transport video we provide for you at any time.

Specification:

Main Specification	
Product Name	Automatic ambulance
Engine	2.3T 174PS L4
Max. power(kW)	128(174PS)
Max. torque (N·m)	430
Gearbox	6 speed manual
Overall Dimension(mm)	5498x2068x2485
Body structure	5 door 3 seater truck
Wheelbase(mm)	3300
Max. horsepower (Ps)	174

Max. power speed (rpm)	3200
Max. torque (N·m)	430
Max. torque speed (rpm)	1400-2400
