Product Description

Product features:

Adopts Isuzu's advanced turbocharged engine with strong power and high torque output, which can easily cope with the situation even when fully loaded and under complicated road conditions, ensuring the timeliness of cold chain transportation. The doors adopt multiple sealing technologies, and the sealing rubber strips are soft and durable, effectively preventing the leakage of cold air and maintaining the stability of the low-temperature environment inside the compartment. The vehicle has good climbing performance, the chassis design is optimized, the suspension system is properly tuned, and it can drive smoothly in mountainous areas and other areas with large slopes.

Product usage:

Suitable for long-distance cold chain logistics transportation, strong power to ensure that the goods are delivered to the destination on time, reduce the time in transit, to protect the freshness of the goods.
For transportation of goods in coastal areas or humid environments, good sealing performance prevents outside moisture from entering the compartment and affecting the quality of goods.
Distributing refrigerated food and medicine for supermarkets and hospitals in mountainous areas, the climbing performance ensures unimpeded transportation.

Product advantages:

Strong power to improve transportation efficiency, to meet the emergency transportation needs, and enhance the competitiveness of enterprises.
Excellent sealing performance reduces energy consumption, saves operation cost and guarantees the effect of cold chain.
Outstanding climbing ability expands the transportation range and serves the cold chain needs in more areas.

After-sales service

AUTOKING has four overseas branches to develop overseas customers. We also carry out after-sales service guarantee for vehicles.

Is the price cheap?

The price is chosen by comparing several car manufacturers, and we also hope that customers can compare several times and finally choose our company.

Is international logistics guaranteed?
