Product Description

Product features:

Equipped with a variety of first aid medicines and consumables, and categorized storage, clear marking, easy for health care workers in emergency situations to quickly access.
Installed with a vehicle-mounted pharmacy management system, it can carry out real-time monitoring of the stock of drugs and consumables, and remind the replenishment in time to ensure that the first-aid supplies are sufficient.
The modularized design of the medical equipment installation platform facilitates the rapid replacement and installation of medical equipment according to different emergency needs.

Product usage:

Provide timely medication for patients in daily first aid work, and meet the medication needs of all kinds of first aid scenarios. Ensure that the first aid medicines and consumables can be replenished in time after multiple first aid missions, without affecting the subsequent rescue work.
Adapt to the changes of different types of first-aid tasks, flexibly adjust the configuration of medical equipment in the vehicle and improve the pertinence of rescue.

Product advantages:

Adequate and easily accessible emergency medicines and consumables guarantee timely rescue.
Inventory monitoring system ensures stable supply of emergency supplies, avoiding the impact of rescue due to shortage of supplies.
Modularized design improves the flexibility of equipment configuration and enhances the rescue efficiency.

After-sales service

AUTOKING has four overseas branches to develop overseas customers. We also carry out after-sales service guarantee for vehicles.

Is the price cheap?

The price is chosen by comparing several car manufacturers, and we also hope that customers can compare several times and finally choose our company.

Is international logistics guaranteed?

After the purchase of goods are shipped, the company tracks the order in full. Shipping video and transport video we provide for you at any time.
