Product Description

Product features:

The refrigeration unit of the Isuzu refrigerated truck features low-noise operation, adopting advanced sound insulation technology and optimized compressor design, the noise is extremely low during operation and will not cause interference to the surrounding environment. The exterior of the vehicle is designed with eye-catching reflective markings, which can effectively improve the visibility of the vehicle at night or in dimly lit environments and ensure driving safety. The vehicle is equipped with an automatic fire extinguishing device, which can be quickly activated to extinguish the fire once a fire hazard occurs in the compartment to protect the safety of personnel and goods.

Product usage:

Cold chain distribution in noise-sensitive areas such as urban residential areas, hospitals, schools, etc. Low-noise refrigeration units to avoid disturbing the public.

Suitable for night distribution tasks, reflective markings enhance vehicle recognition and reduce the risk of traffic accidents. When transporting flammable and explosive cold chain goods, such as some chemical raw materials, the automatic fire extinguishing device provides safety.

Product advantages:

Low-noise operation enhances user experience, expands the operation range and meets the requirements of urban environmental protection.

Reflective marking improves the safety of night driving and protects the safety of transportation personnel and goods.

Automatic fire extinguishing device provides safety protection for cargo transportation and reduces the risk of fire.

After-sales service
