Product Description

Product features:

Intelligent assisted driving system is installed, including automatic emergency braking, lane keeping assist and other functions to improve the safety of ambulance traveling and reduce the risk of accidents.

Equipped with a vehicle fault diagnosis system, it can monitor the operating condition of the vehicle in real time, discover hidden faults in time and provide maintenance suggestions to ensure that the vehicle is always in good operating condition.

Lightweight body materials are adopted to reduce the weight of the vehicle, reduce energy consumption and improve the economy and flexibility of the vehicle under the premise of ensuring the strength of the body.

Product usage:

In the high-speed driving process of performing first aid tasks, the intelligent auxiliary driving system guarantees driving safety and ensures that patients and medical personnel arrive at the hospital safely.

In daily maintenance, the vehicle fault diagnosis system helps to find and solve vehicle problems in time, reducing the impact of vehicle failure on rescue work.

In urban congested road conditions, the lightweight body makes the ambulance more flexible, facilitates rapid shuttling and improves rescue efficiency.

Product advantages:

Intelligent assisted driving improves driving safety, reduces the incidence of accidents, and guarantees the smooth running of rescue operations.

Vehicle fault diagnosis system reduces maintenance costs, extends the service life of the vehicle, and ensures that the rescue vehicle is always available.

Lightweight design improves vehicle performance, adapts to different road conditions, and improves rescue efficiency.

After-sales service

AUTOKING has four overseas branches to develop overseas customers. We also carry out after-sales service guarantee for vehicles.

Is the price cheap?

The price is chosen by comparing several car manufacturers, and we also hope that customers can compare several times and finally choose our company.

Is international logistics guaranteed?

After the purchase of goods are shipped, the company tracks the order in full. Shipping video and transport video we provide for you at any time.

Specification:

Main Specification	
Product Name	Automatic ambulance
Engine	2.3T 174PS L4
Max. power(kW)	128(174PS)
Max. torque (N·m)	430
Gearbox	6 speed manual
Overall Dimension(mm)	5498x2068x2485
Body structure	5 door 3 seater truck
Wheelbase(mm)	3300
Max. horsepower (Ps)	174

Max. power speed (rpm)	3200
Max. torque (N·m)	430
Max. torque speed (rpm)	1400-2400
